## REORGANIZATION

## Ike Okays Plans For Setting Up Defense System

WASHINGTON (UPI)—President Eisenhower has approved plans for setting up a general staff system for the armed forces as the first "important step" in defense reorganization, the Defense Department disclosed Friday.

A top defense official told newsmen the new joint staff would formally begin operations Sept. 1.

The group of 400 high-ranking officers was provided for in the defense reorganization bill which became law on Aug. 6.

The staff, which will reach its size limit by next Jan. 1 in a gradual build-up, is organized generally along the lines of the present general staffs of the Army and the Air Force.

The new joint staff will be organized in six sections, each headed by a two-star officer—a major general or rear admiral. The sections are personnel, intelligence, operations, logistics, plans and policy, and communications—electronics.

### RESPONSIBLE

The director of the joint staff is Air Force Lt. Gen. Oliver S. Picher who is directly responsible to the Joint Chiefs.

The new plan, which puts the Joint Chiefs of Staff directly in charge of combat forces subject to Eisenhower and the defense secretary, was urged in Congress as being vital to swift action in the atomic and space age.

It eliminates the secretaries of the Army, Navy and Air Force from the military chain of command but leaves them responsible for administration and supply of combat forces.

The Pentagon made public a timetable under which the eight major American military commands will pass under direct control of Defense Secretary Neil H. McElroy and the Joint Chiefs of Staff.

On Sept. 15 the United States European Command, under Air Force Gen. Lauris Norstad with headquarters in Paris, will become the first of the unified commands transferred under the new setup.

Previously, Norstad reported to the secretary of the Army who had been "executive agent" for the European command.

Now, Norstad will send his military requirements list to the Joint Chiefs of Staff and McElroy will order his needs met by the services.

All Army, Navy and Air Force elements in Europe will be directly under Norstad's command, and no forces can be withdrawn by (Continued On Page 2-A)

## Ten Ex-Nazi Extermination Men Convicted

ULM, Germany (UPI)—Ten former members of Nazi "extermination" squads were convicted and sentenced to terms ranging from three to fifteen years Friday for the mass murder of more than 5,000 Lithuanian Jews in 1941.

Judge Edmund Wentzel rejected their pleas that they were acting on "superior orders" and said Adolf Hitler himself was a murderer.

Most of the defendants had been in jail since late 1956, although some had held civil service positions since the war.

A key point in the judge's statement was whether Hitler's orders to exterminate Jews was legal.

"There is no doubt that this order was simply a measure of extermination by the leaders of the state and that it had not the slightest legal basis," he said. "Its purpose was to destroy those persons in order to perpetuate the National Socialist in power."

Wentzel said the court concluded the defendants were, at the time of the murders, aware the orders were illegal.

"In no civilized land can there be an unconditional binding order which excuses crime," he said.

Furthermore, said the judge, some of the defendants had conducted themselves "proudly" after the mass executions of Lithuanian Jews, having photographs made of themselves alongside corpses.

## Ike To R.I. For Vacation

WASHINGTON (AP)—President Eisenhower left beaming and belatedly Friday for a vacation at Newport, R. I.

The presidential plane took off from National Airport at 4:08 p.m. (EDT). Eisenhower had planned to leave Friday morning, but held up his departure to let Hurricane Daisy get out of the way.

He started his holiday here, however, with a round of golf with George E. Allen, who accompanied him to Newport.

## Bombardment Of Quemoy Is Intense

May Serve As Pre-Invasion Softening Up

TAIPEI, Formosa (UPI)—Communist artillery poured a searing barrage Friday night that brought the intense bombardment of the Nationalist outposts through the seventh day.

The lengthy and massive shelling was intended by the Reds to be a pre-invasion softening up tactic, the Nationalist Defense ministry said. A Communist landing attempt in the off-shore Nationalist islands within three to five days was predicted by the ministry.

As the Formosan situation grew more tense President Eisenhower summoned acting Secretary of State Christian Herter for a Conference. The White House said "the United States is watching the situation."

### REINFORCEMENTS

Reinforcements were en route to join the already powerful U.S. 7th Fleet in Formosan waters. The 45,000-ton aircraft carrier Midway was steaming westward from Honolulu and another carrier, the Essex, was en route from the Mediterranean Sea. The heavy cruiser Los Angeles was accompanying the Midway.

Under Vice Adm. Wallace M. Beakley's command, the 7th Fleet strength will be six aircraft carriers, three heavy cruisers, 40 destroyers, four submarines, and at least 20 supporting ships.

Authoritative sources in Washington (Continued On Page 2-A)

## Ike Confers On Situation In Far East

WASHINGTON (UPI)—President Eisenhower conferred with acting secretary of State Christian A. Herter Friday on the Red Chinese threat against Formosa shortly before taking off for his vacation at Newport, R.I.

After the conference, the White House said only that "the United States is watching the situation."

However, twice in less than a week the State Department has warned the Chinese Reds that it would be highly dangerous for them to attack the Nationalist-held Quemoy Islands off the China coast.

### WARNING

Putting teeth into the U. S. warning, the giant 100-plane carrier Midway was speeding from Pearl Harbor to join the already beefed-up Seventh Fleet in its mission of guarding the Formosa straits against Red Chinese attacks.

In addition, the heavy cruiser Los Angeles sailed from Long Beach, Calif., Wednesday for Formosa. The reinforcements, ordered in the face of Red China's menacing activities, will boost the strength of the Seventh Fleet to 53 warships.

Dispatch of the Midway to Formosa brought to six the number of carriers assigned to the Seventh Fleet in the western Pacific. The Navy said the carrier force would be kept at this strength for "another week or two."

The Navy did not say how many airplanes were aboard the Midway. But the 45,000-ton carrier is able to handle up to 100 aircraft.

Meanwhile, authoritative sources reported that jet pilots with U. S. Pacific forces have been given permission to fly somewhat closer (Continued On Page 2-A)

## JES' Ramblin'

### First Bale

That first cotton bale in the Ouachita national bank is attracting interest for it is to be auctioned off to the highest bidder on September 15. This year in all probability it will be such as to attract many bidders for the honor of its possession.

This year as an added attraction a pleasing figure of a boy and girl, one on each side of the bale. The girl, at the right is an attractive miss and her costume of cotton goods attracts interest while the boy across from her is in Boy Scout uniform, and of course, all apparel is cotton.

### Features

Two highly important features will mark the incoming of the month of September, the first fall month on the calendar. On Monday the annual rodeo will be in progress in West Monroe, and the next day on the calendar after that will mark the opening of all schools in the Twin Cities.

### School

An anticipated 12,000 to 13,000 children will proceed Tuesday morning to their respective schools in Monroe and (Continued On Page 2-A)

## IN WHITE SCHOOLS

## Va. Board Agrees To Enroll Negroes

NORFOLK, Va. (UPI)—The Norfolk school board agreed Friday to enroll 17 Negro students in six previously white schools, despite a Virginia law that would automatically close any racially integrated school.

In a dramatic, six-page report to U. S. District Judge Walter E. Hoffman, the board said the Negroes were acceptable for admission for the current term beginning Sept. 8.

Hoffman was then asked to deny the enrollments until the 1959 term, but he indicated he would deny the request to delay integration of the schools.

School board attorney W. R. C. Cocke, in the motion to defer integration until 1959, said the people of Norfolk, school officials,

parents and students were "wholly unprepared" to cope with integration this fall.

It marked the first time in Virginia history that a school board had approved integration of public schools. At the same time, it created the first direct conflict with state laws that automatically close public schools which permit integration.

Gov. J. Lindsay Almond was vacationing at an undisclosed spot when the board's decision was read by school board chairman Paul G. Schweitzer. Almond has said repeatedly, however, he will enforce state laws calling for continued school segregation.

Schweitzer said the board's decision was "in compliance" with (Continued On Page 2-A)

# Soviet Russia Revokes Ban On Atomic Testing

## Dogs Brought Back Alive In Red Sky Test

LONDON (UPI)—The Soviet Union has shot two dogs 280 miles up in a rocket and brought them back alive, Moscow Radio said Friday night.

In Washington the feat was regarded as another first for the Soviets but a British rocket expert said it was "not astonishing."

Moscow Radio said the dogs went up twice as high as any other dog, that had been recovered alive. The dog Laika in Sputnik II died and the satellite presumably burned up when it reentered the lower regions of the earth's atmosphere.

U. S. rocketeers last month sent a mouse twice as high as the Soviet dogs in a 6,000-mile flight from Cape Canaveral, Fla. to the South Atlantic. The mouse survived the trip into space but was not recovered from the capsule after it plunged into the ocean.

### NOT SOLVED

Prof. H. S. W. Massey, chairman of the Royal Society's chair-siott committee which directs Britain's rocket research program, said the vertical flight of the new Soviet dog rocket "does not solve the real problem of re-entry horizon-tally after orbiting."

He said he was sure the Russians could send dogs up even further.

"This is not the first time that dogs have been recovered and it is really an extension of what the Russians have been doing already," Massey said.

"This time it is two dogs and they have gone higher. It is just a natural step and I do not find it surprising."

Moscow Radio said the dogs were sent up in a one-stage rocket Wednesday and landed "in a precisely allocated sector."

It said the rocket was launched somewhere in the Soviet Union in accordance with the International geophysical year program.

Besides the dogs, the rocket had apparatus for studying the upper layers of the atmosphere, the report said.

### Shreveport Gets

6 Months To Try Segregation Law

SHREVEPORT, La. (AP)—Federal Judge Ben C. Dawkins Friday allowed the city of Shreveport six months in which to try out its new ordinance to preserve segregation on public street cars.

The judge continued for the six month period a suit filed by eight Negroes challenging the new ordinance which permits the trolley car drivers to maintain segregation under safety provisions.

Judge Dawkins in his decision was critical of federal courts which act hastily on segregation by issuing injunctions, which he said aggravate the situation.

"The problem is mutual," Dawkins said. "It is not one-sided. It is one this court hopes can be worked out not by violent revolution but by peaceful evolution."

Judge Dawkins gave the challengers of the ordinance six months to show any unlawful discrimination and said that if no complaint is filed by then he will dismiss the suit.

The new ordinance provides for trolley car drivers to order passengers to move if weight distribution or interference with his visibility tend to affect safe operation of the car.

The jurist surmised that the new attempt to continue segregation by statute might be constitutional on its face value but might be considered unconstitutional on its application.

## Partly Cloudy Seen For Today

Clear to partly cloudy skies are forecast for the Monroe area today.

Yesterday the mercury rose to 91 degrees and receded to a low of 67 degrees. Thursday's readings were 89 and 66.

Arkansas may expect little change in temperature today with a clear to partly cloudy forecast.

CONGRESSMAN AND SON — Rep. Henry A. Reuss (D-Wis.) of Milwaukee, is shown here with his son, Christopher, 15, who was found in the rugged moun-

tain country of west central Wyoming after the boy became separated from a hiking party. (AP Wirephoto)

## Estimate 420 Persons Will Die In Wrecks

United Press International

Millions of American motorists were expected to jam the nation's highways for the three-day Labor Day week end, the last fling of summer, and safety officials hoped the traffic toll would be held to a minimum.

The National Safety Council estimated, however, that the death toll on the nation's highways might run as high as 420 persons in the holiday period from 6 p. m. local time Friday until midnight Monday.

A toll of 420 would be the lowest Labor Day holiday death rate on the highways since 1954, when 368 persons were killed. It also would be 23 below the United Press International count of 443 for the 1957 Labor Day weekend.

The council said its estimate of 420 fatalities compared with a normal toll of 350 deaths during a similar non-holiday period at this time of year.

### FAIR AND WARM

Fair weather and warm temperatures blanketed much of the nation, but scattered showers and occasional thunderstorms moved over the northwest, parts of the Rockies and the Great Plateau, and the northern plains.

Meanwhile, traffic and safety forces about the nation were mobilized in effort to hold traffic deaths to a minimum. Many states beefed up state and city police units by calling out national guardsmen.

In Georgia, Gov. Marvin Griffin notified the National Guard to have both men and planes ready to aid in traffic patrols. The governor said he was supposed to use the guard only in emergencies, but he felt a "real emergency exists" when traffic deaths for Georgia were estimated at 14 the holiday period.

In Indiana, persons arrested or (Continued On Page 2-A)

## 69 Okay After Frightening Trip

SAN FRANCISCO (UPI)—A four-engined Great Lakes airliner with 69 persons aboard landed at International Airport Friday night after flying the last miles from Honolulu with dwindling fuel that threatened to force an ocean ditching.

Escorted by a Coast Guard R5D search and rescue plane an Air Force RD121 Constellation radar picket plane, the DC4 flew over wooded hills between the ocean and airport and put down safely at 7:31 p.m. (PDT) 10:31 p.m. (EDT).

The plane, on a special tourist flight with 63 passengers and six crew, had reported while more than 200 miles from the coast that it was running low on gas and bucking strong headwinds on the 2,400-mile route.

## IN LITTLE ROCK

## Board Hopes For Race-Mix Delay

WASHINGTON (UPI)—Members of the Little Rock, Ark., School Board expressed hope Friday that the Supreme Court may grant their plea for a delay in integration at Central High School.

But government attorneys predicted the high court would order the immediate admission of seven Negro students to the school. They said the court scheduled full-scale hearings Sept. 11 only to give the school board a chance to present its case.

## Legislature In Ark. Adjourns Special Session

LITTLE ROCK, Ark. (UPI)—The Arkansas Legislature adjourned its emergency session Friday after authorizing an investigation of "communist influence" in the Negro organization pushing for school integration.

The lawmakers appropriated \$20,000 for the attorney general to investigate state branch of the National Association for the Advancement of Colored People.

The State Senate Thursday had rejected the bill. Overnight, Gov. Orval Faubus got in touch with Senators who had voted against it and told them in no uncertain fashion he wanted the law along with his sweeping powers to close state schools rather than integrate.

Little Rock School Superintendent Virgil Blossom was flying back from Washington Friday night. He and the school board were in a tight corner on the opening date of Central High School, the storm center of the whole dispute.

The U. S. Supreme Court delayed a decision on Little Rock integration until Sept. 11 on the under- (Continued On Page 2-A)

The court left in effect the stay granted by the Eighth Circuit (Continued On Page 2-A)

## IN SEARCH FOR PAL

## Korean Boy Enlists Aid Of State Paper

BATON ROUGE (AP)—A young Korean boy today enlisted the aid of the "Louisiana State News-papers" in his search for a Marine pal from Louisiana last seen with "the noise of the cannons . . . as the farewell song."

The Baton Rouge State-Times received the letter from Young H. Won, the first grade of fibre industry, college of engineering, Seoul National University, Seoul, Korea.

Apologizing for his "bad English expression," the youth began, "I am a Korean boy who has found a American Marine corps, who is my sworn father as he told me."

"I can only remember that his home district was Louisiana, and his name was 'Brandy' which, I

think, is not spelled correctly. He has brown hair, blue eyes, high nose and tall. He was at that time not married, but he had a loving woman."

"He had parents and a brother who was about my age, but I am not sure whether he had only that one, or many."

Won said seven years ago, when he was 13, he lived with the Marine about six months in his tent and a front line fox hole "made of sand bag and wood in the front line, which was about 50 meters from the enemy."

The Marine nicknamed him "Pewee," the young Korean said. "Strange it was," the letter said, "I was very comfortable and happy while I stayed with him. (Continued On Page 2-A)

## Reds Agree To Proposal For Meeting

MOSCOW (UPI)—The Soviet Union Friday night revoked its ban on atomic tests but agreed to President Eisenhower's proposal to meet with the United States and Britain at Geneva on Oct. 31 to open negotiations on ending further nuclear testing.

Word of the Soviet action came from Premier Nikita S. Khrushchev. (The disclosure followed an announcement in Washington earlier Friday that the U. S. would conduct 10 more atomic test explosions before Oct. 31.)

Khrushchev said the U. S. and Britain were "plainly utilizing the ending of nuclear tests by the Soviet Union in order to gain military advantages for themselves."

### SECURITY

He said Russia would not let her own security interests be prejudiced by such actions.

The U. S. and Britain had agreed Aug. 22 to end nuclear bomb tests whenever the Russians agreed to open negotiations for a system of control and supervision based on the findings of the recent scientific conference at Geneva.

The Soviet Union had announced last March 31 that it was halting tests of atomic and hydrogen bombs and called upon the United States and Britain to follow suit.

In Eisenhower's tentative acceptance of the Soviet proposal, the President called for a year-to-year suspension of tests beginning Oct. 31 while serious negotiations for an inspection system were underway.

Khrushchev revealed that the Soviets were revoking their test ban in an interview printed in Pravda, the official Communist Party newspaper.

"The United States and Britain, which cut across the will of the peoples, relieve the Soviet Union of the obligations it had assumed in the hope of meeting with the goodwill of the governments of the Western powers with regard to the immediate and universal ending of nuclear tests," he said.

However, Khrushchev said Russia would accept President Eisenhower's proposal to open talks Oct. 31 on ending nuclear tests. He said he considered Geneva as the most suitable place for the talks. It was at Geneva that East-West scientists recently worked out a technical method of control over supervision of an agreement to end nuclear tests.

Oct. 31 was the date proposed (Continued On Page 2-A)

## Marine 'Copter Crashes Killing Winnsboro Man

SAN JUAN CAPISTRANO, Calif.—A United States Marine helicopter carrying a Winnsboro man crashed near here yesterday killing all three crew members.

First Lieut. R. F. "Bobby" Polk 26, of Winnsboro, was killed instantly as he was returning from a routine training mission. Polk was serving as co-pilot. Marine authorities said a full investigation now being conducted has not yet revealed the cause of the crash.

Others killed were Lt. Edward W. Slattery, 25, and crew chief Sgt. James L. Turo. The craft was an HUS-1 Sikorsky helicopter.

Lt. Polk is survived by his wife, Mary Lou Polk, Tustin, Calif.; his father, Robert Fulton Polk, Sr., Winnsboro; his mother, Mrs. Besse Brown, Calif.; a brother, Don Polk, Denver, Colo. and a sister, Mrs. Richard Cox, Lancaster, Calif.

Funeral arrangements last night were incomplete.

# Ike Okays Plans For Setting Up Defense System

(Continued From Page One)

Individual services without his approval.

The Pentagon spokesman said the Joint Chiefs would take over direct control of the Alaska Command and the Eastern Atlantic and Mediterranean Command on Dec. 1. They are headed respectively by Air Force Lt. Gen. Frank A. Armstrong Jr., Elmendorf Air Force Base, Alaska, and Adm. James L. Holloway, London.

On Jan. 1 the following commands and commanders will come under the new organization:

Atlantic Command, Adm. Jerauld Wright, Norfolk, Va.

Pacific Command, Adm. Harry D. Felt, Pearl Harbor, Hawaii.

Continental Air Defense Command, Air Force Gen. Earle E. Partridge, Ent Air Force Base, Colorado Springs, Colo.

Strategic Air Command, Air Force Gen. Thomas Power, Offutt Air Force Base, Omaha, Neb.

Caribbean Command, Army Lt. Gen. Ridgely Gaither, Quarry Heights, Canal Zone.

The defense official emphasized the new joint staff would engage mainly in planning. He said it would take over some of the detailed war planning previously done within individual services.

## Legislature In Ark. Adjourns Special Session

(Continued From Page One)

standing Central would not open until Sept. 15.

That was one of the measures passed at the special session, but Faubus did not sign it into law so that the scheduled opening of Central is now Sept. 8 as set previously by the school board.

Faubus was asked Friday why he did not sign the bill.

"That is part of our strategy," he said.

The strategy will put tremendous heat on the six-member school board which blossomed summoned to meet Monday to consider Central's opening date.

The board will get an angry reaction in Little Rock if it postpones the opening. White segregationists here want the school opened on Sept. 8 when it can be done on an all-white basis. Seven Negro students who attended last year have been transferred to a Negro High School.

Before it adjourned, the House received a new bill prohibiting the transfer of Little Rock students after school opening. It would thus prohibit the seven Negroes from transferring back to Central.

The bill was not passed. But the Legislature was remaining technically in special session until January and it could get approval next week.

The lawmakers come back to Little Rock on Sept. 5 for the state democratic convention and they might convene again then.

Faubus told reporters Friday he had received scores of letters and telegrams from across the nation reacting to the drastic loss-the-schools program.

"I face this with dread," he said. "I wish this were a situation that prayer could solve."

## Switch Engine, Auto Collide At Thomas Crossing

A Missouri Pacific switch engine struck an automobile at the Thomas Street crossing here last night. No one was injured.

Charlie Holmes, 309 Morton St., told police he failed to see the train until it was too late to stop. He said he applied his brakes, but they failed to hold.

About \$100 damage was done to the black and white 1956 model sedan, and no damage was reported done to the switch engine.

W. D. King, 207 Smith St., engine foreman, said the trainmen did not see the auto until after the engine struck it.

Witnesses said the railroad crossing signals were working properly. The auto was pushed about 20 feet down the track by the engine, which was traveling about 25 miles per hour, according to King.

No charges were filed in the incident.

# U.S. To Fire Ten A-Blasts Before Oct. 31

(Continued From Page One)

said the new Nevada shots would wind up the 1958 test program which has been in progress at the Eniwetok Proving Ground and Johnston Island in the Pacific.

It described the forthcoming tests as "low yield nuclear detonations at the Nevada test site."

The announcement said that "certain information of interest to seismologists will be provided in advance of the underground detonations." Newsmen, as usual, will be invited to witness the detonations.

The statement said the tests "will be completed prior to Oct. 31" but did not provide the specific September and October dates on which they would be held.

So far in the Pacific tests, 16 shots have been officially confirmed. Included were two high altitude missile borne explosions at Johnston Island, 700 miles from Hawaii.

The Russians have asserted that this country detonated at least 32 nuclear devices since the Pacific tests started last April, but that figure is believed far too high.

Following is a breakdown of officially confirmed nuclear explosions by the three atomic powers:

United States 113, U.S.S.R. 39, Britain 18.

Except for Britain, however, these totals are admittedly substantially under the actual number of shots. Best estimates are that this country has set off about 120 atomic explosions and Russia about 55.

### INDIAN QUEEN SUES COWBOY

— One time Indian queen of the Pendleton, Ore. round up, Leah Conner, 25, has asked in superior court suit in Los Angeles that Cowboy rodeo star Casey Tibbs be named father of her 3-year-old daughter. Miss Conner is shown here in ceremonial dress worn when she was queen in 1952. She is a descendant of Nez Perce warrior Chief Joseph. (AP Wire-photo)

## POLICE BLOTTER

### Oren S. Rushing Services Slated In Alexandria

Services will be held for Oren S. Rushing, 51, former resident of Monroe, Tuesday at 2 p.m. at the John Kramer Funeral Home chapel in Alexandria.

He died Thursday in the Veterans Hospital at Alexandria following a lengthy illness.

Rushing moved to Alexandria from Monroe two years ago. When living here, he was employed by the International Paper Co. in Bastrop.

Burial will be in the National Cemetery in Pineville under the direction of the John Kramer Funeral Home.

Survivors include his wife, Mrs. Veronica S. Rushing; four children, Oren S. Jr., Jack Merlyn, Don Edward and Sherry Denise, all of Alexandria; and four sisters, Mrs. Thelma Heath, West Monroe; Mrs. Karen Francis, Monroe; Mrs. Myrtle Johnson, Santa Barbara, Calif.; and Mrs. Ruby Hoffman, Key West, Fla.

### JAILED

Herbert Perry, 34, 215 North Eighth St., is in city jail on charges of drunk and disorderly conduct, disturbing the peace, and aggravated battery with a knife. Perry was unable to post \$415 bond.

### CHARGED

Monroe police arrested a 36-year-old Negro woman on theft charges last night. Addie Mae Alexander, 1904 1/2 Flynn St., was free on \$350 property bond after she was charged with the theft. She was arrested at home.

### POSTS BOND

Billy H. Pilley, 24, 1622 South Fourth St., surrendered at city hall last night on a warrant charging him with driving while intoxicated and reckless driving. Pilley posted a \$500 property bond and is scheduled to appear in city court Sept. 3.

### FURNACES REOPEN

PITTSBURGH (UPI) — U.S. Steel Corp. has started up another blast furnace and open hearth shop in Chicago because of an increase in steel demand. Several hundred workers also have been recalled.

# Va. Board Agrees To Enroll Negroes

(Continued From Page One)

Hoffman's earlier orders to desegregate the classrooms of this seaport city of 290,000.

Hoffman said he would permit a "reconsideration" of the decision if the U.S. Supreme Court grants a 2 1/2-year delay in integration at Central High School at Little Rock, Ark., as was requested.

But Hoffman, who gave the school board orders Monday to reconsider its rejection of 151 Negro applicants for white schools here, doubted if the high court would grant the Little Rock delay.

Patricia Godbolt, 16, was among the Negroes admitted. School Supt. J. J. Brewbaker had testified earlier that Miss Godbolt was qualified to attend a white school and would have been assigned to one if she "had been white."

In Arlington, Va., the county school board formally requested police protection during the opening of Arlington schools Sept. 4. Thirty Negroes have asked for admittance to white schools in the Washington suburb.

And at Charlottesville, Va., the city school board Thursday night delayed the opening of schools from Sept. 2 until Sept. 15, pending the settlement of legal conflicts surrounding the city's pupil assignment plan and a federal court order to integrate.

# Korean Boy Enlists Aid Of State Paper

(Continued From Page One)

He was so kind that he got American boy's clothes from his family for me, and treated me as his loving boy."

The Marine regiment, he said, was either the First or Seventh Regiment of the First Marine Division.

However, Won added, in 1951 the regiment moved near Munsan where there were many spies from North Korea, "so the chief made me leave from my sworn father. I left from him hearing the noise of the cannons and various guns as the farewell song."

The Korean concluded, "during seven years, I fought against the struggle of existence for myself so that now I am a college boy of the most famous university, also I am tutor at night."

"Please help me finding my sworn father and write me the effect of this letter."

The letter, written carefully in ink, was addressed to: "The Editor of the Louisiana State News-paper, Louisiana, U.S.A."

# JES' Ramblin'

(Continued From Page One)

West Monroe when the 1958-59 academic year starts here.

Supt. W. W. Ward, of the Ouachita parish schools, stresses the fact that all of the parish schools are either new or have been revamped to bring them up to date in case of older buildings. He is especially proud of the new and elaborate Ouachita Parish High school that will throw open doors for the first time Tuesday morning.

## Admirer

An outspoken admirer of school buildings here was Dr. Ira Castles, native of Monroe, but one who has lived much of his life away from the Twin Cities.

He spent much time while here yesterday visiting scenes of his earlier life. He was highly impressed by local educational facilities.

## Meeting

Hoy Anders, Monrovia now a drug salesman, visiting El Dorado, Ark. yesterday, ran into a well known physician Dr. Wharton, of that city. When introduced, the physician was eager to meet someone from Monroe. "Why my father was a well known minister there, for he served as pastor of the First Baptist Church there when it was first opened to the public in the year 1911!" he exclaimed.

## Proud

The Northeast Louisiana Shrine club is proud to entertain, through the Ouachita chapter, members of the DeMolay order here for three days this week for the 23rd conclave.

A fine group they are and registration has gone up. Today is the final day here and old friends and newly formed friends will regret to leave such a hospitable place on the map as the Twin Cities.

# Bombardment Of Quemoy Is Intense

(Continued From Page One)

ington reported that U.S. jet pilots have been instructed to chase attacking Communist planes most of the way across the Formosan Strait. At the southern end of the strait, just off the major Communist Chinese port of Amoy, lie the Quemoyes.

Some Nationalist government of fices began moving out of Taipei into the suburbs as a precaution against possible air attacks.

In London, the British Foreign Minister said the situation in the Formosa Strait "is serious but not critical." British diplomats were reported to have concluded that "a general war" in the area was not imminent.

# Man Is Struck By Car While Crossing Road

A 67-year-old man was knocked to the pavement yesterday by an automobile as he was crossing Sixth Street. He was treated at a local hospital for slight injuries.

Gus Anton, 311 Catalpa St., driver of the car, told police he was traveling about 20 miles per hour and was attempting to stop when he struck John Fuller, Tourists Hotel.

Fuller was on crutches and witnesses reported the car knocked the crutches from him. The accident was termed unavoidable and no charges were filed by the police department.

# Board Hopes For Race-Mix Delay

(Continued From Page One)

Court of Appeals of its decision overruling Lemley.

The Supreme Court scheduled a full-scale hearing for Sept. 11 in the belief that the high school would open on Sept. 15. Chief Justice Earl Warren said this would allow the court time to hand down a decision before the start of the school term.

United Press International sent Warren a message Friday asking on what information the court based its belief that the school would open Sept. 15. He replied that in accordance with custom, the court would not elaborate or explain anything in its order.

"There was considerable speculation in Little Rock that the school would open on Sept. 8—three days before the high court hearing. Under the appeals court stay, the school could start its fall term on a segregated basis."

Faubus has not yet signed an emergency bill passed by the special session of the Legislature setting Sept. 15 for the opening of the school. Unless the bill becomes law, the opening would be on Sept. 8 as set by the school board.

The six board members found themselves on the horns of a dilemma. If they insist on a Sept. 8 opening, legal experts said, they would be seriously jeopardizing their case in the subsequent high court hearing.

If they postpone the opening until Sept. 15, they would appear to segregationists in Little Rock to be bowing to the wishes of the court and to be missing a chance to open the school on a non-integrated basis.

# Parishes Exceed National Level In Selling Bonds

Five parishes of District Six, which includes northeast Louisiana, exceeded the state and national average in the purchase of savings bonds during the first seven months of 1958.

Statewide the sale of series E and H savings bonds is 61.1 per cent of the goal of \$43,100,000. Nationally the percentage of sales up to Sept. 1 is 61.6.

Northeast La. parishes which have met or exceeded the state and national percentages to date are: East Carroll, 96; Franklin, 63; Lincoln, 67; Madison, 93 and Union, 93.

Jackson parish lacked only 1 per cent of meeting the state goal.

# Reds Agree To Proposal For Meeting

(Continued From Page One)

by President Eisenhower and British Prime Minister Harold Macmillan for the ending of their testing and for negotiation of a world agreement on a test ban.

While agreeing to the Oct. 31 date, Khrushchev complained that the U.S. and British proposals gave no indication the two nations were ready to halt tests at once.

"As is evident from these statements, both governments are continuing to look for all kinds of loopholes to evade the immediate ending of tests," he said.

"They accompany their proposals by such reservations and plainly artificial conditions which make this position of theirs abundantly clear."

Russia announced it had ended its testing some time ago. Britain still is testing its bombs in the Pacific.

In Washington, the United States announced that it would fire 10 small nuclear blasts in the Nevada desert during the next two months prior to the Oct. 31 atomic deadline.

Defense Secretary Neil H. McElroy and John A. McCone, chairman of the Atomic Energy Commission, said in a statement that the new shots would wind up the 1958 test program "which has been in progress at the Eniwetok proving ground and Johnston Island in the Pacific."

(The vacation White House at Newport, R. I. had no comment on the Khrushchev statement.)

Pravda said Khrushchev stressed that such talks must have as their purpose the conclusion of an agreement to end tests of nuclear weapons of all kinds by all states for all time.

The United States and Britain had proposed that the tests be banned on a year-to-year basis.

# Estimate 420 Persons Will Die In Wrecks

(Continued From Page One)

cautioned for traffic violations during the week end will be advised by state policemen of up-to-the-minute accounts of state and nation traffic death tolls, compiled from the wires of United Press International and other sources.

The Oklahoma Highway Patrol planned to press every man and every available piece of equipment into service during the week end, and Illinois officials issued a "traffic condition red" alert to warn motorists of highway hazards.

In Iowa, 10,000 clergymen were asked to make Sunday "Traffic Safety Sunday" with sermons stressing the "individual's moral responsibility for safe driving."

Although the safety council feared a high toll, it said "not a single traffic death need occur" if drivers avoid speeding, drive with patience, courtesy and common sense and avoid alcoholic beverages.

The week end marked the last good chance for the nation to enjoy picnics and outings. Resorts and beaches were expected to be jammed and, at Chicago, thousands were expected to flock to the city for the American Legion convention which scheduled a gigantic parade on Labor Day.

But the holiday also served notice to the nation's children that school bells will begin ringing next week.

The last day of the DeMolay State Conclave gets underway at 9 this morning with a business session. Election of state officers for the coming year will follow.

Climaxing the conclave will be the grand banquet this evening at 7. Attending will be DeMolays, their dates and chapter advisors. Principal speaker will be the Rev. Ben Oliphant, pastor of St. Paul's Methodist Church.

Presentation of trophies and the grand ball will officially close the convention.

Delegates from Arkansas, Texas and Mississippi are expected to be guests of the 19 Louisiana chapters during the sessions here.

## Red Link Voted Down In Britain

LONDON (UPI) — Leaders of Britain's 8-million strong Trades Union Congress (TUC) took a strong stand Friday against any links with international Communism and blocked a left-wing move to slash the country's defense spending any further.

The leaders of the powerful TUC British equivalent of the AFL-CIO, worked out the policy in behind-the-scenes talks in preparation for the annual meeting which will open at Bournemouth Monday.

However, they made it clear that the government and organized labor still were at loggerheads over the broad lines of economic policy.

The TUC chiefs Friday: —Decided to continue boycotting the Moscow-controlled World Federation of Trades Unions.

—Turned down a proposal for even sharper cuts in the nation's defense bill.

The Congress next week will debate a resolution by the National Union of Vehicle Builders calling for talks between representatives of the Anti-Communist International Confederation of Free Trades Unions and the Communist run World Federation of Trades Unions.

The resolution urged that the talks should be held "to consider the possibility of common action."

But the TUC council took the line that the Iron Curtain unions simply were tools of world Communism. The council decided to urge delegates to reject the motion.

The council's stand against further arms cuts was taken in connection with a resolution offered by the National Union of Public Employees asking the Congress to declare that Britain's economic ills largely were due to its \$4,200,000,000 defense outlay.

But the TUC chiefs rejected this as a policy on the grounds that the international situation was too unstable to permit it. Delegates will be asked to shelve the motion instead of voting on it.

WASHINGTON (AP)—President Eisenhower Friday signed a bill authorizing the federal government to reimburse the states up to five billion dollars for portions of roads incorporated into the interstate system.

It is estimated that 10,859 miles of roads in this category have been built—1,950 miles of toll roads in 26 states and 8,909 miles of free roads in 37 states.

With the interstate system program under construction, the legislation signed by the President tells the Secretary of Commerce to determine how much money these states have coming.

Total reimbursements are estimated at \$4,830,000,000 of which \$2,520,000,000 would be for toll roads and \$2,310,000,000 would be for free roads.

City Courts

MONROE

A total of \$372.50 was assessed yesterday in Monroe City Court with Judge W. M. Harper presiding. Most of the cases handled were traffic offenses.

Willie Hiley, 36, 108 Green's Alley, was sentenced to 30 days compulsory jail term on a charge of simple battery. Another 30 day sentence was added for disturbing the peace. A \$500 peace warrant against Hiley was nolle prossed.

WEST MONROE

A 48-year-old woman was remanded for trial yesterday in West Monroe court on charges of disturbing the peace by committing an indecent act. Picolla Davis, 101 Grape St. W.M., pleaded not guilty to the charge and will be tried Sept. 5. She is presently free on \$100 bond.

A total of \$171 in fines was assessed by Judge Jasper Jones.

## To Fingerprint School Children

GONZALES, La. (AP) — Ascension Parish school children will be fingerprinted as an aid in disaster work, officials said Friday.

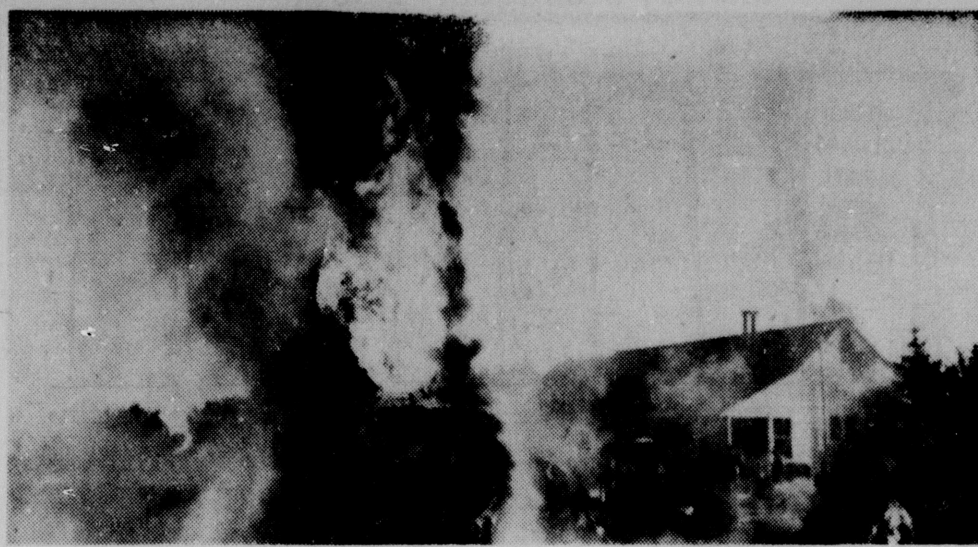

The parish civil defense organization approved the step, subject to an okay from the school board. Sheriff Hickley Quaghepack said his office would do the work.

## Ex-Chief Of College In Miss. Dies

TALLAHASSEE, Fla. (AP) — Dr. Irving E. Rouse, 63-year-old former president of William Carey College in Hattiesburg, Miss., died here Friday after a year's illness.

Dr. Rouse, who made his home here since resigning as president of William Carey in 1956, had been hospitalized for about six weeks.

Dr. Rouse was born in Poplarville and was graduated from Pearl River County agricultural high school and Mississippi College.

He served in the state Legislature in 1920-24 and then entered the Baptist seminary at Louisville, Ky.

He was pastor of Hazelwood Baptist Church in Louisville, Ky., dean of Hazard Baptist College in Hazard, Ky., and pastor of Fifth Ave. Baptist Church.

In 1946, he became president of

Mississippi Woman's College which later became co-educational and was changed to William Carey.

Last year, the college dedicated a new library in his honor.

Survivors include his widow, two brothers and three sisters.

Funeral services were scheduled for tomorrow at Tallahassee's First Baptist Church and burial will be in Louisville, Miss.

**ORDERS PIGEONS CAPTURED**

TURIN, Italy (UPI)—Desperate city officials Wednesday ordered that 3,000 of Turin's estimated 60,000 pigeons be captured and sold to towns where there was no pigeon problem. Two months ago they were forced to cancel orders for killing 10,000 pigeons when angry bird-lovers wrote an average of 50 letters a day in protest.

Denmark's Cold Shoulder

Denmark's cold - shouldering of the United States atomic - powered submarine Nautilus was either an unfriendly gesture or a ridiculous head-in-the-sand attitude toward progress. Why that country should suddenly be so shy when other countries show no such timidity is a mystery.

People throughout the world have known for more than a dozen years that ships and eventually planes and all other types of powered craft will use atomic energy for fuel. The shift-over from steam, gasoline and oil is as inevitable as progress.

This is true for several reasons. Probably the first and most important is the fact that other kinds of fuel will be exhausted and that nations which progress will be forced to use new sources of power. Another is that atomic fuel requires far less space and therefore makes travel without refueling simpler and more practicable.

If the people of Denmark have the inordinate fear of radiation which their shunning of the Nautilus seemed to show they are certain to fall behind in world progress unless they change their attitude. If the rest of the world had that kind of timidity we would soon go back

to the horse and buggy days and probably even further back than that.

Luckily Denmark's attitude is not general and that was amply shown by the tremendous demonstration accorded the Nautilus when it glided triumphantly into New York. America's bold prowler of the deep and conqueror of speed and geography was accorded a thunderous welcome.

The undersea pioneers had been gone four months. In that time they had made the first passage in history beneath the north pole and had set an Atlantic crossing record of six days, 11 hours and 55 minutes in traveling from Portsmouth, England, to New York. "By no means were we wide open all the way," said Comdr. William R. Anderson, the craft's skipper.

Rear Adm. Hyman G. Rickover, who was properly honored in New York, after having been snubbed in a previous ceremony, considers the Nautilus safe. "If the navy didn't think it was safe, we wouldn't bring it into our own ports," the main mover behind the first atomic submarine said.

The United States has come a long way in underseas travel.

Welcome For Alaska

Alaska's sweeping majority vote in favor of statehood in the United States deserves applause from this country. Acceptance of statehood by the voters had been viewed as foregone conclusion but the enthusiasm of the people of that territory far exceeded all expectations.

Casting their ballots after the United States congress had approved a bill in favor of Alaskan statehood and after that measure had been signed into law by President Eisenhower, the Alaskans, in record numbers, voted five to one in favor of becoming one of the states of the United States.

The total ballot was expected to reach 40,000 compared with a previous high record of 28,000. The interest was so great that more than 25 per cent more people voted in that election than had ever voted before in any election in Alaska.

The fact that Alaska has an area more than twice as large as that of Texas and that the biggest vote in its history was only 40,000 gives some idea of the sparsity of its inhabitants. Texas, which far exceeds any other state in the union in size, thinks nothing of casting a million votes in a race for governor. Even so, Texas is not one of the thickly populated areas of the United States.

Admission of Alaska to the union, which is expected to be proclaimed about

the first of the year, can be of vast importance both to this country and to that territory.

Development of Alaska's vast natural resources is expected to be speeded up tremendously as more and more facilities are made available. The population is likely to grow by leaps and bounds as more and more people are called upon to develop those resources. Improved means of transportation will come as a natural result. With proper promotion, Alaska's towering mountain ranges, which run as high as 20,000 feet, may well become as popular for resorts as the Alps in Europe.

The Alcan highway, which runs from the United States into Alaska, through Canada, is expected to carry a far heavier load of traffic as travel between this country and Alaska increases. Increased airline and coast ship-line service also are anticipated.

Citizens of the United States who want to move to Alaska can now do so without losing their citizenship. Those who long for wide-open spaces can find plenty of them in Alaska.

For the great majority of people who remain in the United States the chief benefit will come through greatly increased resources for the United States as a whole.

HOLMES ALEXANDER

Brightest Days Of Senate Session Recorded At End

WASHINGTON, D. C. — The comet flares its brightest at the moment of extinction. The United States Senate reached its finest bursts of color and emotion in its closing days. It was a Senate which had failed in many ways, but sometimes it takes failure to make us wise and tragedy to find the marrow of true character. It was that way with the Senate.

Many members seemed to suffer from the knowledge that this failure, this tragedy, reached out to encompass more than their own body. One Senator broke down, lost his voice and found himself blinded with tears, as he tried to say that the fight for America must go on. I have never heard so much reference to the sainted Founders of the nation, or so many allusions to the fall of Rome, as were made at the end of this session. There was a sense of being lost, a sense of inescapable doom. It is not too much to write that there was a premonition of death.

How did the Senate fail? Well, despite evidence that would have convinced any jury of cab drivers, the Senate would not write a Labor bill which read the record back to Organized Labor. Despite plain signals of inflation, the Senate could not do the brave, bold thing of cutting civilian - domestic appropriations. Instead, Congress, with the Senate behaving far worse than the House, increased these proposed spendings by billions while increasing military spendings only by millions. The Senate did not come

to grips with the educational crisis; instead it reached again into the taxpayers' pocket with the crude and plutocratic assumption that money will buy everything, at home and abroad. And the Senate, although this time the efforts were honest, and even noble, failed on very close votes of 41 to 40 and 49 to 41 in legislation to take the Supreme Court out of the policy - making business.

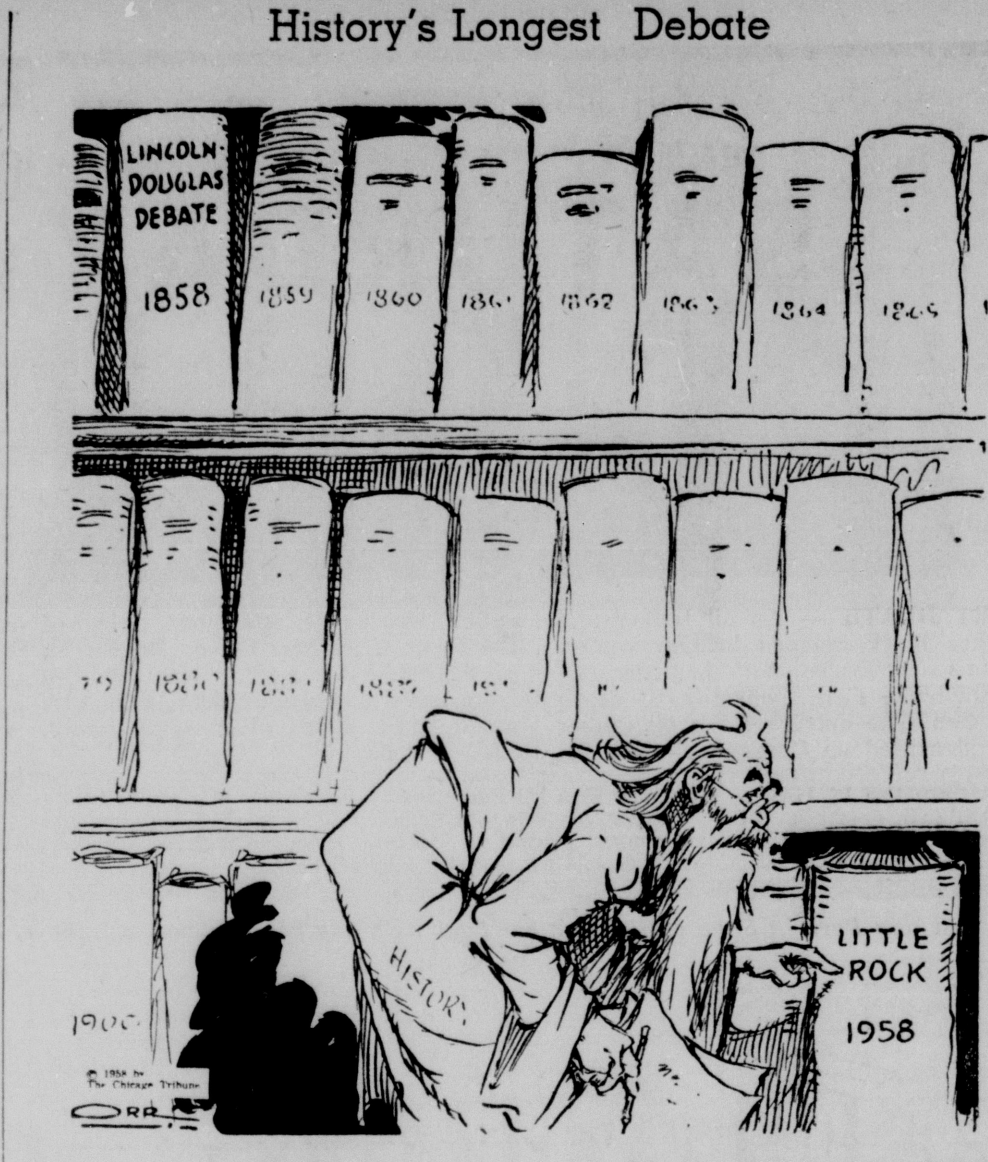

In an atmosphere of sadness and against an historical backdrop of decline - and - fall, there were two major speeches on the same afternoon which made contrasting diagnoses and prescribed differing remedies for our stricken nation. Since truth often has more than one aspect, there is something of value in both the following viewpoints:

Senator Fulbright blames the people: "The . . . the people for some years now, have spoken with the voice of a false God. . . . The people wanted to believe that . . . they could bask in the artificial sunlight of a government which did not bother them with serious things . . ."

Senator Jenner blames the government: "If I had to reduce everything I have learned in the last 14 years to one sentence, I could sum it up in these words: 'Gentlemen, PLEASE do not give your government so much money. Easy money is the root of political corruption. . . . The men in Congress who pushed the American economy over the brink from financial responsibility to run-away inflation will have to answer for

the destruction of everything political, economic, moral (and) intellectual that has made America strong. . . . Fulbright dreads isolation and over-reliance upon American arms for self-defense: "The other evil (is) that America would find itself isolated against its own will from the rest of the world, because the rest of the world no longer trusted us. . . . I am not opposed to bombers. But neither do I want SAC to become a nuclear version of the Maginot Line. . . . Jenner dreads involvement and over-reliance upon non-American arms for American defense: "I have opposed collective security and foreign aid because they are failures, and the record shows it. They have not strengthened American security or brought peace and good will to the world. Instead, they have exported jobs and have drained away the wealth of the country. . . ."

Fulbright blames the Republicans and President Eisenhower: " . . . another attitude, another platitude, another beatitude . . . Superficial public relations campaigns master - minded from Madison Avenue. . . . Jenner blames the disintegration of both major parties: " . . . the Republican party was gradually shifted from the leadership of Ken Wherry, Robert Taft and Arthur Vandenberg . . . was taken over by Paul Hoffman and his kind, the Modern Republicans. . . . The Democratic party was transformed from a party managed by

BASCOM TIMMONS

Ike Knows Little Rock Troops Viewed As Blot

There was even stronger "go-slow" feeling in President Eisenhower's privately expressed statement than was quoted. The President said he did not want to be put in the position of appearing to coerce a whole section which had a record of being a law-abiding people. The President also said that he was aware that a large segment of the population would regard the sending of troops to Little Rock as a blot on his administration.

OTHER SIDE OF COIN—Events at Little Rock are often cited as a great handicap to this country in its relations with other countries and that the sending of troops to Little Rock made a favorable impression in these countries. But Prime Minister Nehru of India told a visitor: "Of course I did not like to see troops sent to Little Rock. That is what England used to do to us."

JOHNSON WINS AND LOSES—Senator Lyndon Johnson of Texas, Senate Majority leader, is under heavy attack in the South and by conservatives because of charges that he engineered the defeat of States' House - passed Rights bills in the Senate. General opinion, however, is that Johnson gained heavily with liberal forces who will control 1960 Democratic National Convention and may have enhanced his Presidential nomination prospects.

MCCLELLAN, SOUTHERN CHOICE?—Senator John F. Kennedy lost Southern and conservative strength by moving farther to the left in the just-adjourned Congress. Although it previously had been predicted that Kennedy would have the support of several Southern states for the 1960 Presidential nominee, this probability no longer exists. Some Southern leaders believe Senator John L.

McClellan of Arkansas will have the support of at least three or four Southern States for the Presidential nomination.

LABOR'S BAD YEAR — Organized labor will observe Labor day in its most discouraging year in a quarter of a century. The biggest unit, the Teamsters, are riddled with racketeering and hoodlumism. It had also been a year of unemployment and treasuries of all unions have been affected. It estimated that 6 per cent of the nation's organized labor strength will be unemployed even a year or more hence.

CLAIMS LARGE, HOPES LESS — Democrats are publicly claiming that Governor Harriman, who squeezed into the Governorship by less than 12,000 votes in 1954 will win by 400,000 this time. Privately they would be immensely pleased with half that amount, and some admit an upset victory for Republican Candidate Nelson A. Rockefeller is possible. The chances of Keating, Republican, to defeat Hogan, Democrat, for Senator are better than Rockefeller's chances to beat Harriman, most New York political observers believe.

STATES RIGHTERS VICTORY — States Righters were jubilant over the victory of 68-year old able Representative William M. Colmer of Mississippi. With the assured reelection of 78-year old Representative Howard Smith, chairman of the Rules Committee, States Righters retain the two top posts on the committee which has life or death control over legislation. Had Colmer been defeated Representative Ray Madden of Indiana, a liberal Democrat, would have moved into second place on the committee.

FARLEY TOO STRONG — New York Democrats had no doubt that James A. Farley would be elected United States Senator. Their fear was that he would lead the ticket as a vote - getter, which would have been fatal to Governor Harriman's Presidential hopes.

Daily Devotion

And then said we unto them after this manner, What are the names of the men that make this building? — Ezra 5:4.

A church is a spiritual as well as a physical structure. We take pride in our buildings, and rightly so, if they are erected and used for true worship and to the glory of God. And, we boast about the number of church members we have. But when we come down to facts, what are the names of the persons who make your church a physical and spiritual reality? In a church of a thousand members, it is not the whole thousand, unfortunately. Often it is distressingly few. What do you contribute to your church?

Merciful God, forgive our neglect of Thy kingdom and help us to serve Thee better. In Christ's name we ask. Amen.

By James J. Metcalfe  
Weep Not Too Much  
IT IS all right to feel regret . . . But not a deep remorse . . . Your condemnation of yourself . . . Can throw you off your course . . . Do be contrite and shed a tear . . . But never take the view . . . That you have been so sinful that . . . There is no hope for you . . . Do not surrender to despair . . . Let not your courage break . . . Keep on contributing your best . . . For someone else's sake . . . God wants you to have faith in Him . . . And not succumb to fear . . . And He will always love you if . . . You strive to be sincere . . . So do not let your mind build up . . . A self-reproaching story . . . God understands, and He forgives . . . When you are really sorry.

DR. CRANE SAYS

Fluoridation Facts Offered

Harley asked for some frank facts, and I am giving them to him. Be grateful we have a free press in America to help uncur hysteria and check dangerous notions that would otherwise cause mob stampedes. Memorize Jefferson's motto below.

CASE Z - 306: Harley B., aged 35 is a successful clergyman. "Dr. Crane, what are the facts about fluoridation of drinking water?" he began.

"I have been asked to oppose it when our city council meets next month.

"And I have been flooded with literature saying fluorine is a deadly poison and that the idea is inspired by Communists to undermine the health of Americans."

MOB HYSTERIA  
Fluorine belongs to the haolgen family in chemistry, which includes chlorine, iodine and bromine, as well as fluorine.

All of them are deadly poisons, if used in large doses. But chlorine has been added to our city water supplies regularly to kill bacteria and thus purify drinking water.

Yet chlorine was a deadly poisonous gas for use in warfare! Iodine is swallowed by people who wish to commit suicide. But we began adding iodine to our table salt in 1924 to check the large tumors of the throat (goiters) which afflicted men as well as women.

So iodine, which is a deadly poison in big doses, is a great medical aid to human health when consumed in small quantities.

The same thing is likewise true of fluorine.

Down in Deaf Smith County in Texas, the water supply has as high as 8 parts of fluorine per 1,000,000. And the folks there have been drinking it for hundreds of years with no significant ill effects, except for discoloration of the enamel of the teeth.

But their teeth meanwhile have been free from decay and almost as hard as rocks.

FLUORINE FRENZY  
Indeed, that's where we got the

idea about adding a little fluorine to drinking water, so it wasn't the Communists who inspired the plan.

Remember, Deaf Smith County residents drink 8 parts per million down in Texas!

Elsewhere, we add only ONE part per million. And nearly 1,200 cities are using fluorine in their water, for it cuts down decayed teeth by about 65 per cent.

If fluorine is such a deadly poison as frenzied opponents would have us believe then why aren't the people of Deaf Smith County in Texas dead or maimed or all afflicted with cancer and the other dire results alleged to result?

For they drink 8 times as much fluorine as the rest of us:

"HORSE SENSE" NEEDED  
Before you go off half cocked or lend your influence to any cause, be sure you have heard both sides of the issue threshed out freely.

Don't be "headline" thinkers, who are easily stampeded by such mob inciting terms as "Deadly poison" or "Communists".

Alas, one of New England's greatest clergymen became obsessed with the belief that people were becoming sick because of the magical influence of witches.

So he personally led the attack that terminated in the Salem witchcraft plot on American history.

Yet this clergyman was an educated, Christian clergyman! So don't think hysteria and mob action are limited just to morons and nitwits.

The newspaper's greatest function is to puncture false notions and spike stupid rumors that otherwise produce dangerous mob reactions.

"Where the press is free," said Thomas Jefferson, "and every man is able to read, all is safe."

Always write to Dr. Crane in care of this newspaper, enclosing a long 4 cent stamped, addressed envelope and 20 cents to cover typing and printing costs when you send for one of his booklets.)

GEORGE SOKOLSKY'S DAYS

2 Millionaires Run In New York

The 1930s produced a special breed of millionaire's son—the man not only with the social conscience but also with the guilt complex. These young people were at college during the Depression years or were still under the influences of the exciting movements which marked that period. They wanted to do the right thing. They witnessed the poverty of those who lost their money as well as those who never had any. Even if born Republican, they found themselves happiest in the New Deal which gave them an outlet for serving that one-third of a nation which the rich felt that their ancestors had robbed.

Averell Harriman was the son of E. H. Harriman who made an enormous fortune building Western railroads. The elder Harriman was a particularly astute person who came out of the ranks and had neither a grandfather nor a father to leave him any wealth. What he had was his brains, in accordance with the ways of his day, he earned it.

Averell Harriman started life as a Republican but entered the New Deal as a liberal. Franklin D. Roosevelt was attracted to him as Theodore Roosevelt was repelled by his father. He was given a number of important posts in the Roosevelt administration, the most important being his ambassadorship to Moscow during the Tcheran and Yalta conferences.

He is well informed on all phases of the Russian question, although like so many New Dealers he is ill-equipped to defend Roosevelt's errors as politically necessary, which while it may be sound politics is unsound morals.

Harriman has served as governor of New York State for one term and is now up for reelection. His career as governor, while not startling, was nevertheless distinguished for competence. Not a great orator, Harriman likes to get around, making an unusually large number of speeches.

Nelson Rockefeller is one of the five grandsons of John D. Rockefeller who founded the Standard Oil fortune which was, at one time, one of the largest in the world. Each of the five grandsons shows particular qualities, Nelson's being politics and public service. Like Harriman, he joined the New Deal under Franklin D. Roosevelt and together with Dr. Stanley High, authored the "Good Neighbor Policy" for Latin America. The failures of this policy cannot be attributed to Rockefeller.

because as long as Roosevelt and later Truman adhered to the "Europe First" policy, Latin America had to take third place after Europe and Asia and that has proved to be most unfortunate for the United States. The "Good Neighbor Policy" might have saved this country from the costly errors which have now laid Latin America open to Soviet penetration.

Nelson Rockefeller served in the Roosevelt, Truman and Eisenhower administrations. He must have continued accepting appointive positions but he has chosen to risk placing himself before the people for election which is tough under any circumstances. Habituated to research and polls and stuff like that, Rockefeller must have data which incline him to believe that he has a good chance of election.

Averell Harriman and Nelson Rockefeller have had the same associations in and out of politics. They are socially of the same - tent. They have both been influenced in their political careers by Harry Hopkins and Mrs. Anna Rosenberg, who has been Nelson Rockefeller's political mentor. They have both devoted their enormous fortunes to public life.

The campaign will therefore be a very interesting because what will they say against each other? Harriman's record as governor has been good; Rockefeller's record as a public servant will stand scrutiny. This can be a campaign on the issues without too much personal vituperation, although there is no telling what may happen in campaigns.

It is known that the Republicans plan to make the Democratic leadership of Carmine DeSapio a major issue. It is difficult to see how they can succeed with that because Carmine DeSapio has never been associated with those Italians who are often referred to as the Mafia. Nor can it be said that Harriman has been under DeSapio's control, for Harriman brought with him to Albany many New Dealers, some of them of a leftist persuasion. Nevertheless, it will be interesting to see what the Republicans make of all this. A campaign against DeSapio would not be a campaign against Harriman.

## NEXT WEEK

# Many To Appear In Rodeo Lineup

Approximately 175 cowboys will participate in the Tommy Steiner World Championship Rodeo which gets underway Monday at 2:30 p. m. at the Northern Louisiana Rodeo and Horse Show Arena in West Monroe.

Rodeo head is Jimmy McGuire. Launching the annual event will be the parade set for Monday at 10:30 a. m. Registration deadline for contestants is 6 p. m. Sunday. The production was engaged last January. Other Steiner shows have played at points such as Harrisburg, Pa., Waco and Ft. Worth, Tex., Shreveport, Havana, Cuba, St. Louis, Mo., Charlotte

and Winston-Salem, N. C., and Indianapolis, Ind.

## RODEO STARS

Heading the list of rodeo stars will be Tris Coffin, who plays "Capt. Tom Rynning" in the television series "26 Men" and Kelo Henderson, seen on TV as "Ranger Clint Travis."

Other rodeo stars include Rex and Wanda Rossi, a Hollywood stunt team acclaimed as the world's leading trick ropers and riders. They have played Madison Square Garden for the past five years. Another team of trick riders will be Ted and Betty Lamb, of Dallas, Tex.

Buck LeGrand and Junior Meeks known as rodeo's top team of bullfighter clowns, have appeared at the Twin Cities rodeo before. The bullfighting will feature a herd of Brahman bulls from Austin, Tex., said to be the most vicious in rodeo.

## PERFORMANCES

Performances other than the 2:30 p. m. show Monday will be at 8 p. m. Monday through Thursday. A pony will be given away and other door prizes will also be presented Thursday night.

Contestants will try for approximately \$10,000 in prize money in events such as steer wrestling, saddle bronc riding, Brahman bull riding, bareback riding, calf roping and girls' barrel racing.

Some of the horses have never been ridden and many of the steers just arrived from Old Mexico and have never been handled.

## RODEO BAND

The rodeo band will open each performance with a grand entry featuring 20 white and palomino horses, each with silver mounted saddles and riders dressed in matching costumes. There are also other colorful riding groups.

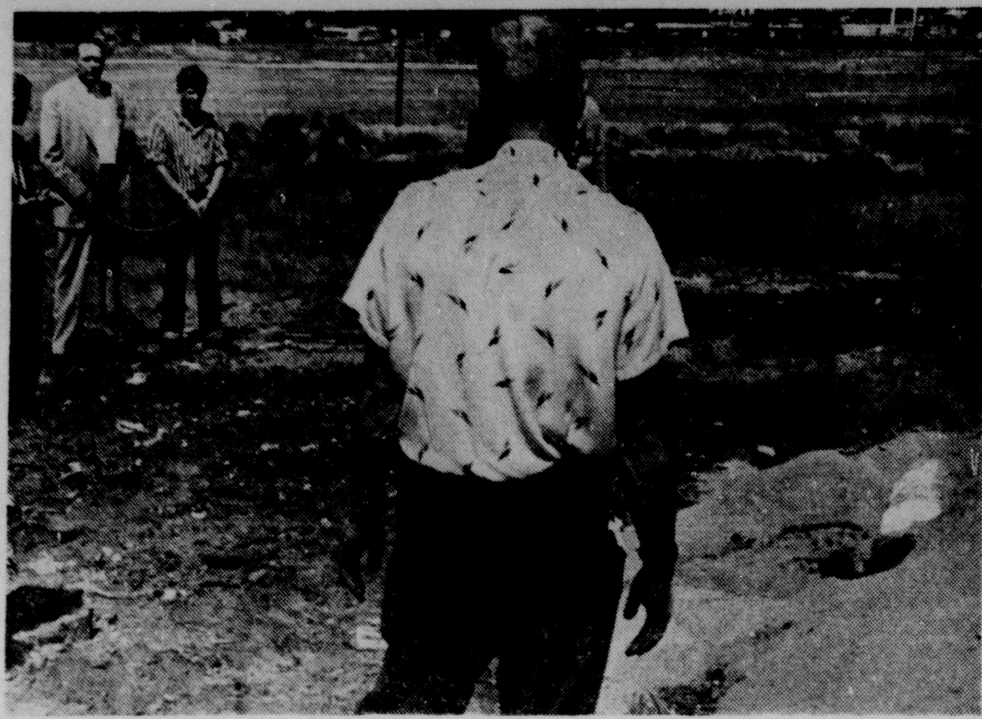

Pick-up men in the bronc-riding events will be costumed in identical outfits and will ride matched horses.

Rodeo livestock and equipment is now on the rodeo grounds, and officials invite the public to come out and look around.

## Cheap Auto Gets Sailor In Trouble

CATHAM, England (AP)—Jim Thornton, a British sailor, appeared in court accused of driving a car with flapping fenders, defective steering, bad brakes and without insurance or a driver's license.

"I only paid six pounds—\$16.80—for the car," Thornton protested to the judge. "You bought yourself a packet of trouble," the judge replied, fining Thornton 44 pounds 15 shillings—\$125.30.

**CIRCUS SLAYING SCENE**—The body of Lester G. Brown 11, 11-year-old Denver boy who vanished in a circus area Wednesday night, lies on the ground in Colo., beside the shallow grave where, police said, he was buried after strangled by Walter Hammill, 28, of Omaha, Neb. Asst. Police Chief James Childers

said Hammill, standing in the background chained to a detective, admitted killing the boy after promising him a ride on an elephant. Hammill was not employed by the circus but had been following the show since it left Omaha Sunday night. (AP Wirephoto)

## THREAT OF ATTACK

## China's Political Intentions Cited

By J. M. ROBERTS

The very fact that the Chinese Reds have broadcast their threat of an imminent attack on the Nationalist-held offshore islands near Amoy has served to slightly relax the tension created by the recent intensified shelling.

The reasoning is that no military commander would make such a public announcement unless his intentions were more political than military.

The Nationalist garrisons on the islands know full well that they are not subject to a Red blockade in the Formosa Strait, as the Red

broadcast alleged. Not only is their escape route not cut off, but the sealanes under the protection of the U. S. 7th Fleet have been used regularly for supplies and reinforcement.

There is recognition in Washington, however, that the Reds could carry their propaganda so far that they would force themselves into action to avoid loss of face.

The question of whether the United States may yet need to declare an unequivocal policy with regard to defense of the islands is still a serious one.

The Dulles statement that an assault on Quemoy and the other islands would represent a threat to peace is considerably short of saying that the Americans will be in there helping the Nationalist defenders. The wording, while strong for diplomatic language, nevertheless reminds one as much of a promise to protest in the United Nations as of a promise to shoot.

It suggests that the Secretary still feels he is involved in a war of nerves rather than on the brink of actual hostilities.

It is quite probable that one of the chief Red objectives is to produce a need for negotiations, thereby hoping to advance their hope of diplomatic recognition. Inferentially, they are saying that the Middle East is not the only powder keg which needs defusing at a summit conference, and that they would have to be there.

Always in the background, however, is the factual position of the offshore islands, and of Formosa. No less a personage than Chiang Kai-shek once proclaimed that all of the islands, as well as other perimeter territories such as Mongolia, are natural parts of China.

Even if this is not the time, the Reds run the risk of becoming ridiculous if they continue to do little but talk.

They are well aware of it. They could talk themselves into a very serious break.

## Body Of Woman Is Discovered Between Barges

NEW ORLEANS (AP)—The body of a woman was found between two barges on the west bank of the Mississippi River here Friday.

Police believed it may be that of 33-year-old Mrs. Ellen Marie Guy, a despondent mother of four children who was reported to have jumped from the river bridge.

A watchman for the Mississippi River Valley Barge Co. found the body near Marrero, across the big stream from New Orleans.

The family station wagon with one door open and the lights burning was found on the bridge Tuesday night when Mrs. Guy disappeared.

A Coast Guard patrol boat was sent to recover the body.

## Census Totals In W.M. Near

The West Monroe population count is nearing completion with 32 of 44 districts counted, according to John McCormick, city attorney.

With city hall closed today and Monday for the Labor Day weekend, McCormick expects the census to be finished by "Tuesday or Wednesday." The population increase is expected to be close to 7,000, according to informed sources.

## Ring Saves Life Of Cop In Accident

BATON ROUGE (AP)—City policeman John W. Fuqua Friday thanked a ring on his finger for saving his life in a traffic accident.

The 21-year-old officer was on call yesterday when his squad car was struck by another car, thrown into a parked car and bounced into a fence.

Fuqua was knocked out of his car, but the ring on his finger caught on the window drain, dragging him along with the car. He was only slightly injured.

Investigators said the young officer would have been tossed under the rear wheels as the car swung around if the ring hadn't caught.

The driver of the other car, James Robertson, 31, was booked for drunk driving, reckless driving and no driver's license.

## Nullify Order On Bell Company

BATON ROUGE (AP)—Dist. Judge G. Caldwell Herget signed a temporary court order Friday nullifying an order for Southern Bell Telephone Co. to continue toll free service from Duxon into Lafayette.

The Louisiana Public Service Commission denied the Southern Bell request to end the extended service.

Friday's action extended a temporary injunction until a hearing is held on the suit attacking the commission order.

## ISSUE VISAS

## Push Drive On Untagged Dogs In City

A campaign to rid the city of untagged and unvaccinated dogs has been intensified, according to Mayor W. L. Howard.

Howard said police officers will attempt to capture dogs which do not display the proper vaccination tag, but will then shoot dogs which evade capture.

A city ordinance allows dogs to be killed on the spot if officers are unable to catch them. Last year, Howard said, more than 2,000 had to be destroyed because the owners would not properly vaccinate and tag them.

Any dog found in public places without a tag or vaccination within the last 12 months will be impounded for 72 hours. If they are not redeemed during that period, they will be shot, Howard said.

The campaign is being promoted to lessen the danger of school children being bitten by stray dogs. The move was put into effect to minimize the number of stray dogs around school campuses and other areas where children congregate.

## Loan Agreement With Japan On Cotton Signed

WASHINGTON (AP)—A loan agreement with Japan for 6 million dollars to finance the export of raw cotton from the United States was signed at the Export-Import Bank Friday.

The cotton export program is for the crop year which began Aug. 1.

The agreement putting into effect the one year credit, announced by the Board of Directors Aug. 4 in favor of the Bank of Japan, was signed for that bank by Huro Mayekawa and for the Export-Import Bank by Lynn U. Stambaugh, first vice president and vice chairman.

At current prices, approximately 400,000 bales of cotton can be financed for export by this loan which will be available through July 31, 1959. It is estimated that Japan will require imports of approximately two million bales of cotton during the 1958-59 crop year.

This is the tenth cotton credit to Japan, approved since 1948, bringing total Eximbank financing of cotton purchases by Japan to \$545,200,000.

## Subcommittee Against Plan On Boundaries

MONTGOMERY, Ala. (AP)—A legislative subcommittee took a firm stand Friday against any immediate action to abolish Macon County or rearrange its boundaries to lessen its heavy Negro population.

The incoming Legislature has the power to take either step as a means of preventing Negroes from gaining political control in the county, where they outnumber white residents nearly 7 to 1.

Members of a report-writing subcommittee submitted their recommendation as a suggested course for the parent committee to follow in its report to the Legislature.

The rest of the committee could approve the preliminary draft of the report, or they could reject it, or rewrite it.

As written by the subcommittee, the report advocated a wait-and-see policy with no action in the immediate future to gerrymander Macon County out of existence or reduce it in size to shift the Negro population to neighboring counties which have a smaller ratio of Negroes.

The subcommittee recommended instead the establishment of a permanent standby committee to make whatever recommendations it feels might be needed in the future.

## Double Rites For Victims Of Accident

A double funeral will be held tomorrow for Mr. and Mrs. Fred Eppinette, of the Moore Ridge Community near Rayville, victims of a truck-car collision Wednesday on Highway 15.

Mrs. Eppinette was killed instantly and Mr. Eppinette died yesterday afternoon of injuries sustained in the accident.

The final rites will be conducted at the Archibald First Baptist Church at 2 p. m. Sunday with the Revs. K. R. Lawson and Billy Snyder officiating. Burial will follow in the Hall cemetery under the direction of Mulhearn Funeral Home.

Mr. and Mrs. Eppinette are survived by six children: three sons, Roy of Grisby, Calif., Clarence, Rayville, and Felix, Shreveport; three daughters, Mrs. Gladys Minx and Mrs. Bernice McCarty, both of Rayville, and Mrs. Doris Glass, Houston, Tex.

## SURVIVORS

Mrs. Eppinette is also survived by three brothers, Herman and Phil Moore, both of Monroe; Phineas Moore, Alexandria; two sisters Mrs. May Recoulley, Monroe, and Mrs. Eunice Stokes, Rayville; her father, Andrew Moore, Monroe; and 18 grandchildren.

Mr. Eppinette is survived by one brother, E. V. Eppinette, Monroe; five sisters, Mrs. Hattie Tillman, Baskin; Mrs. Katie Poole, Chattanooga, Tenn.; Mrs. Laura Bennett, Rayville, Mrs. Minnie Turner, Meridian, Miss.; and Mrs. Alla Gilley of Delhi.

State police investigating the accident said the mishap occurred when the Eppinettes' pickup truck pulled onto Highway 15 from Moore Ridge Road and was hit broadside by a car carrying John Vaughn, 50, and Alfred Roy, 48, both of Mangham.

Vaughn and Roy were treated and released at a local hospital. No charges had been filed in the accident late yesterday afternoon.

## Schedule Work On Water Line

Work on a new 16 inch raw water line will begin here early next week, according to city officials.

The line, scheduled to cost around \$153,230, will begin at the Bayou pumping plant, cut down Paragoud Blvd., down Indian Mound Road, East to the Loop Road, then along Park Ave. to the water treatment plant at Tenth St. and Park Ave. The 13,000 foot line will be constructed by Arthur Brothers contractors of Monroe.

## 1 Of 4 Drivers

## Need Improving

NEW YORK (AP)—During the past four days, 1,200 persons volunteered to take driving tests in a special project conducted by police and other agencies. The findings: One out of every four either needs to learn to drive better, or to improve vision through corrective eyeglasses.

## Company Head A. K. Roy Sr. Dies At Home

NEW ORLEANS (AP)—A veteran real estate man who climbed from office boy to head of his own company died Thursday night at his suburban home in Metairie.

He is 68-year-old A. K. Roy Sr., a native of Washington, La., who came to New Orleans at the age of 15 and got a job with a real estate firm.

In 1922 Roy entered into a partnership with the firm of Stafford, Derbes and Roy, Inc. In 1938 he formed his own company, A. K. Roy, Inc., of which he was the first president.

Roy was chairman of the board at the time of his death.

Funeral services will be held Saturday at 9 a. m. from P. J. McMahon and Son funeral home, with religious rites at St. Catherine of Siena Church and burial in Metairie Cemetery.

Roy is survived by his widow, two sons, and five daughters.

HURRICANE DAISY

# Storm Threat In East Ends

BOSTON (UPI) — Hurricane Daisy whipped out to sea Friday with faltering fury. The Weather Bureau said the threat to the mainland was over.

The departure of the unwelcome visitor revived the delayed vacation plans of a very welcome tourist, President Eisenhower. His arrival, originally scheduled Friday morning at Quonset Naval Air Station, R. I., was delayed until Friday night by the hurricane.

Late today the Weather Bureau

reported Daisy was roaring about 225 miles east of Cape Cod and heading east-northeastward at about 30 to 35 miles an hour. The fourth tropical storm of the season sprouted "still dangerous" 100 mile an hour winds.

"The threat of hurricane Daisy is over for the North Atlantic coast of the United States but shipping in the path of this hurricane should continue to exercise extreme caution," the Weather Bureau said.

The Weather Bureau predicted Daisy would pick up speed in the next 12 hours and turn from a northeastward to an east-northeast course. The hurricane winds, once reaching 150 miles an hour, spanned out 50 miles from the center and gale winds stretched 225 miles to the southeast and 150 miles to the northeast.

Hurricane and gale warnings were lowered from Portland, Maine, southward to Atlantic City, N.J. Small craft warnings still flew from Eastport, Maine, to Block Island, R.I. Winds in the area would drop from 30 and 40 miles an hour to moderate velocities Friday night, the Weatherman said.

The Nantucket lightship, about 50 miles south southeast of Nantucket Island, reported winds of 52 miles an hour. It was probably Daisy's last teasing of the Eastern Seaboard.

At Newport, R.I., the President's chosen vacation retreat, and at Providence, R.I., sandbags had been filled and stacked as Civil Defense workers in the North had prepared for the worst.

New London, Conn., revived a Daisy - cancelled home-coming celebration for its most famous product, the USS Nautilus. The North Pole pioneering atomic-powered submarine had dropped low in the ocean and waited out the storm.

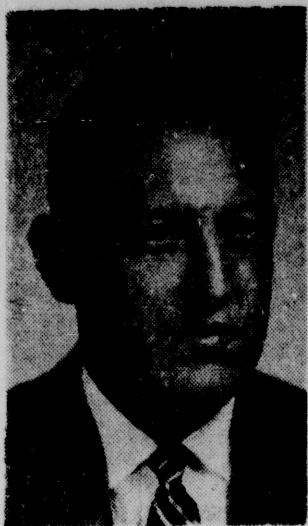

**Town Evacuated**

At the height of the hurricane three Thursday, 85 men were evacuated from a partly-completed Texas tower 60 miles off the Massachusetts coast. The Air Force said Friday crews of two of the early-warning radar outposts remained on duty.

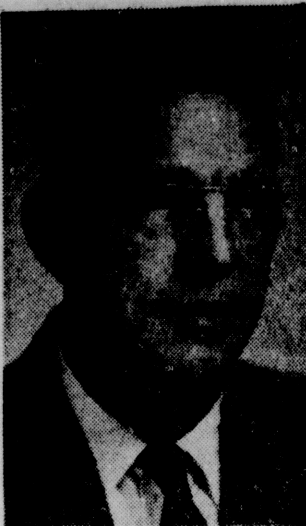

The Texas tower men were back on duty Friday.

Daisy spent the last two days rolling up the Eastern Seaboard, sending wave after wave of alerts running up the coastline before it finally pointed out to sea. Daisy's dance up the Atlantic and off the coast caused no main damage. However a pleasure craft with five persons aboard was reported missing. The Coast Guard said the craft, the Golden Eye, was on a voyage from Bermuda to New Jersey.

The rains that came with Daisy choked off as their mother went to sea. The skies began clearing in the hurricane's wake and the Labor Day weekend seemed assured of better weather.

**CHANGES** — Three changes in the local office of Southern Bell Telephone Company were announced by Ed Whetstone, District Manager. From left, Russell A. Morrow Jr. was appointed group

manager of the company's Winnsboro office. Ed Becker Jr., office manager, succeeds Morrow as Monroe manager. Ray Kleinpeter of New Orleans will assume the duties of office manager.

## Jones Trial Underway In Tokyo Court

TOKYO (UPI)—The defense in the Joseph Crowley manslaughter trial appeared Friday to be laying the groundwork for argument that T. A. D. Jones Jr. did not die of injuries in a drunken fight with Crowley, but of causes connected with his own physical condition.

The prosecution charges that Crowley, 49, Jones' brother-in-law and business partner, fatally injured the son of the late Yale University of football coach in a brawl in their hotel suite.

The next session of the three member panel of judges is scheduled for Sept. 5.

Opening its case Thursday, the defense produced testimony indicating Jones was near-sighted and was accustomed to taking medicines.

Keiji Yamamoto, a junior official for the Iino Heavy Industry Shipbuilding Company who helped list Jones' belongings after his death, told the court that "I thought it strange for a man to have so much" medicine.

The defense is led by Yale-educated Nisei attorney Arthur K. Mori. The prosecution's case is circumstantial.

Jones, president of the company bearing his name, came to Tokyo with Crowley and company consultant Derrick Kissinger last spring to buy a tanker. They went on a round of night clubs on May 7, according to the prosecution case, and Kissinger went back early to the hotel suite they shared while Jones and Crowley did not return until early the next morning.

Around 6:30 a.m. on May 8, Dr. Jo Ono was called to the blood-spotted suite to treat Jones for bruises and injuries, including a cut lip that needed stitches. Eleven hours later, he again was called and found Jones dead.

Yamamoto testified that on May 9 he was helping Kissinger and Crowley with arrangements after the death. Kissinger went around the room collecting the personal effects while Yamamoto listed them. They included three pairs of eyeglasses.

He said Kissinger dumped all the medicine together in one bag.

Dr. Ono came into the room for a while and told him the cause of death was not clear but that he believed it was either a heart attack, cerebral hemorrhage, or suffocation from blood in the mouth, Yamamoto testified.

## Investigation May Re-Open In Negro Death

GREENVILLE, Miss. (AP) — The widow of a Water Valley Negro handyman said the U. S. Justice Department has been asked to re-open its investigation into the death of her husband shortly after he was released from Yalobusha County jail last month.

The Delta Democrat-Times said in a page one story by staff writer Jay Milner Friday that Mrs. Annie Margaret Daniels said in Greenville Thursday two of her family's white friends in Yalobusha County had made the request.

The Justice Department was investigating the death of Woodrow Wilson Daniels but withdrew when the grand jury indicted Sheriff J. G. (Buster) Treloar on charges of manslaughter.

Witnesses testified that Treloar beat the Negro about the head while in jail. Daniels died 10 days later.

Treloar was acquitted of manslaughter charges.

## Northeast Louisiana Deaths

**MRS. BERTHA P. BOTKIN** (Special) — Services will be held today at 10:30 a.m. from the Blackwell - Golden chapel for Mrs. Bertha Pickett Botkin, 85, who died Thursday at her home here.

Mrs. Botkin was born in Indiana and had resided in Morehouse parish for the past 39 years. She was a member of the Presbyterian Church.

Conducting the final rites will be the Rev. O. M. Anderson, assisted by the Rev. Richard Cook. Burial will be in Christ Church Cemetery.

Surviving are the husband, Frank H. Botkins; a son, D. B. Botkin, St. Paul, Minn.; a daughter, Mrs. Calvin H. Todd, Tallulah, two grandchildren and four great grandchildren.

## LUTHER H. MCELROY

Rites will be held at 10 a.m. today for Luther H. McElroy 84, of West Monroe, who died Thursday after a long illness. He was a retired operator of a poultry business.

Conducting the services from the First Baptist Church in Monroe will be the Revs. Jaroy Weber and E. L. Averett. Burial will be in Memorial Park Cemetery by Mulhearn Funeral Home.

Surviving are the widow, Mrs. Nettie McElroy, and a number of nieces and nephews.

Palbearers will be Ted Mahr Jr., Ernest Moore, U. W. Pickens, Jr., H. K. Wimberly, C. R. Rountree and Sam Walker Jr.

Friends of the family and members of the Major Memorial Sunday School class will serve as honorary palbearers.

## GEORGE HENRY TAYLOR

RAYVILLE (Special) — George Henry Taylor, 60, died at his

## New Tiger Arrives At University

BATON ROUGE (AP) — A nine-month-old tiger from Seattle, Wash., arrived Friday at Louisiana State University to become Mike 3rd, LSU's new mascot.

A New Orleans veterinarian who examined him before he came here pronounced him in perfect condition.

The bengal, appropriately enough, made part of the journey, from Seattle to Chicago, via the Flying Tiger Airlines.

Campus welcoming ceremonies will be delayed until classes start Sept. 12.

Students raised funds for their new mascot, after Mike 2nd died last May.

## Teacher Group Asks Federal School Program

MILWAUKEE (AP)—The American Federation of Teachers has called on President Eisenhower to establish federal schools in any state or community that closes schools to avoid integration.

A resolution adopted Thursday by delegates to the 42nd annual convention of the AFL-CIO affiliate urged the President to "provide full educational opportunities on federal property."

The resolution was introduced in behalf of Local 2, New York Teachers Guild, by Richard Parrish, a Negro. Earlier in the convention, Selma M. Borchardt, AFT Washington representative, suggested federal schools in southern states.

"There is a strong possibility," the resolution said, "that some public school systems in Arkansas and Virginia and other southern states may be closed rather than operate in accordance with the letter and spirit of the constitution of the United States."

A resolution opposing a 12-month school year also was adopted by the delegates.

## Signs Bill On Parish Survey

WASHINGTON (AP)—President Eisenhower Friday signed a bill authorizing Army Engineers to make a survey of the Parish Line canal, Jefferson Parish, La., to determine the feasibility of a navigable channel. The canal now is used for small pleasure and fishing craft. Cost of the survey is estimated at \$15,000.

AID, FARM INCLUDED

# Ike Signs 42 Bills Into Law

WASHINGTON (UPI) — President Eisenhower signed 42 bills into law Friday including measures providing more foreign aid, revised farm program, disclosure of employee welfare fund operations and Social Security boosts affecting 90 million Americans.

The President's approval of the measures, plus veto of two minor bills, reduced to 135 the total awaiting his signature in the wake of adjournment of Congress last Sunday morning.

The President acted on the bills preparatory to leaving on his hurricane-delayed vacation at Newport, R.I. He took with him the rest of the measures which still must win his signature or veto.

The President hailed the Social Security bill as a "significant step forward." It boosts social security benefits by seven per cent and raises taxes on both workers and employers to help foot the bill.

The President criticized one provision, which increases federal grants for state-operated relief rolls by about 197 million dollars a year. He said this could "lead only to the weakening of the responsibility of the states and communities."

Under the new law, social security checks for the 12 million persons now drawing benefits will be fatter, starting in February, by an average of \$4.75 a month for most beneficiaries.

The new tax rate on employees will be 2½ per cent on the first \$4,800 in annual earnings. The tax now is 2½ per cent on the first \$4,200. Self-employed persons will have to pay 3½ per cent on the first \$4,800 instead of 3½ on the first \$4,200. The tax boosts are effective Jan.

This means employees earning \$4,800 or more will pay \$120 in social security taxes next year. That's an increase of \$25.50 over the present maximum of \$94.50. The maximum tax on self-employed persons will be raised to \$180 next year, an increase of \$38.25.

The \$3,298,092,500 foreign aid bill approved by the President was 652 million dollars less than he had asked of Congress. He has called the cut one of his major

disappointments and said he hopes the reduced sum will be adequate for mutual security needs.

The labor bill signed by the President requires both employers and unions operating welfare and pension funds to file reports on their operations with the Labor Department.

A requirement that only summary reports be filed was criticized by the President as "making it possible to conceal many abuses."

The President previously voiced disappointment over the failure of Congress to approve a broader labor reform bill this year. The Senate passed the Kennedy-Ives bill aimed as a first step at a combatting union corruption but the measure was killed in the House.

Major provisions of other bills approved:

**Farm** — Provides lower price supports and greater planting freedom for farmers in accord with much of the controversial program recommended by Agriculture Secretary Ezra T. Benson.

**Euroatom** — Hailed by the President as "highly beneficial to Europe and to the United States," it enables this country to join six European allies in developing nuclear power for peacetime use. The so-called Euroatom program involves Belgium, West Germany, France, Luxembourg, Italy and the Netherlands.

**Military Construction** — A \$1,353,850,000 appropriation for missile-age projects including \$252,500,000 for ballistic, defensive and

# Three-Car Crash Is Reported On Louisville Ave.

A three-car accident at the intersection of Louisville Ave. and Walnut St. resulted in one driver being charged with reckless driving.

Two of the cars were stopped in the traffic lane, according to police reports, when the second car was struck in the rear by a car driven by Hia Haddad, 48, 609 North Fifth St.

The second car struck the first in a chain reaction. Driver of the first car was Randall O. Donagan, 22, 3814 DeSiard St., while Charles H. Hunnicutt, New Orleans, was stopped behind him.

Donagan's car was not damaged. Hunnicutt reported damages totalling \$25, and Haddad's car sustained about \$100 damages.

strategic missile installations.

**Agencies** — Provides \$6,090,156,900 to finance operation of 17 independent federal agencies in the current 12 months. The bill—modified after an earlier veto—includes 40 million dollars for the new aid-to-science education program, \$152,810,000 to build 47 new federal buildings in 20 states and Hawaii and \$100,000 for newly-approved pensions and expenses of former presidents Truman and Hoover.

**Onions**—Bans trading in onion futures on commodity exchanges because of charges that such speculation had driven down the cash price on the commodity.

The two vetoed measures were among a host of private bills acted on by the President. He said he disapproved the two because they would have involved special treatment for the beneficiaries.

## EXCELLENT OPPORTUNITY

If you are between the ages of 25 and 45, have been successful in the past and are ambitious for the future, we have an excellent permanent position for you. We are prepared to invest considerable money in the right man, so if you are interested in earning from \$6,000 to \$8,000 a year to start, depending on your qualifications, write to Box HC, c/o News-Star Pub. for a personal interview. Replies in confidence. No traveling required.

# FROST-PROOF FREEZING from FRIGIDAIRE

YOU'LL NEVER, NEVER DEFROST AGAIN... BECAUSE FROST NEVER FORMS... NOT EVEN IN THE FREEZER!

**Revolutionary! Completely Different from Anything You've Ever Seen Before!**

See the Greatest Boon to Homemakers in Nearly 30 Years of Foodkeeping

This you won't believe until you see it—the invention of a completely new and different kind of cold-making system that ends defrosting forever! Don't confuse it with any other so-called "automatic" defrosting systems. **THIS IS DIFFERENT!** Because with Frigidaire—frost never forms in the freezer, either! Never on walls or packages or ice trays. Yet food flavor and vitamins are locked in by never-changing sub-zero cold!

The secret? The engineers call it "sublimation"—a word for "cold air in motion"—so cold, it's hungry for heat, so dry, it's thirsty for moisture. Frost is swept out of the freezer before it can form. See all the foodkeeping wonders of this completely new refrigerator-freezer from Frigidaire—its in-door Instant Ice Cube Service—its Flowing Cold for fresh things. We repeat—you must see it to believe it—now at your Frigidaire dealer's.

DIRECTORS MEET

# Senators Duck Question Of Move To Minneapolis

By WHITNEY SHOEMAKER  
WASHINGTON (AP) — The Washington Senators ducked the big question Friday and wouldn't say whether they plan to sit tight or stake out new territory.

Directors of the American League club did not even take up the possibility of moving to Minneapolis, according to a statement issued after nearly two hours behind closed doors.

Although postponed, their decision may come shortly.

As the team's governing board met here, the city council in Minneapolis disposed of the last major obstacle to extending the Senators a formal invitation to locate there.

Minneapolis aldermen approved a nine-million-dollar bond issue to enlarge the city's stadium from 21,000 to 41,000 capacity.

Neighboring St. Paul made its pitch at the same time, voting to borrow whatever is necessary to expand its stadium from 10,250 to 42,000 if a big league team agrees to operate there.

The twin cities could accommodate only one major league franchise. St. Paul, hoping to get in first, may have its eye on the Cleveland Indians as well as Washington.

Calvin Griffith, president of the Senators, said he had been notified of the Minneapolis action after his board meeting adjourned. Griffith also was advised Minneapolis authorities would submit very shortly an itemized proposal covering attendance guarantees, stadium rent, concessions and other vital considerations.

Griffith said last week he was satisfied with a previous Minneapolis offer to pledge one million admissions in each of the first three years.

St. Paul representatives have spoken with him several times, beginning last year at the World Series, Griffith said. He added

their conversations had never got down to specifics.

Washington directors evidently deferred the matter for lack of a detailed offer to study.

"No vote was taken, no action was taken and there was no discussion of moving the franchise," a spokesman said.

The board spent its time reviewing club finances "in relation to other major league teams," he said. Although consistently in the black, corporate profits for the last-place club reportedly have been small in recent years because of failing attendance. Paltry gate receipts have caused the directors to survey the possibilities elsewhere.

Should they fancy Minneapolis, the Senators would need approval by at least five of the other seven American League teams to move. October is the month for drafting minor league territory, such as the Twin Cities, but the majors have a special meeting scheduled for Chicago on Sept. 9.

Griffith said he had set no date for the directors to convene before their next regular meeting on Sept. 30. They could be assembled at a moment's notice. Three are members of the Griffith family—Calvin, his sister, Mrs. Thelma Haynes, and her husband, Vice President Joe Haynes.

Eugene V. Young, a family friend, is the fourth member. The board added a fifth Friday, making Comptroller Ossie Bluege secretary-treasurer. Bluege is a former Washington player, manager and farm director.

Griffith said Minneapolis was mentioned only in connection with proposals for strengthening the minor leagues. In that respect, the directors also discussed the future of their farm teams at Chattanooga and Charlotte.

Griffith would not detail these talks, other than to say both the Southern Assn. and South Atlantic Leagues are shaky.

## Kids To See Bastrop Play Pioneer Club

BASTROP, La. (Special) — Bastrop tries to clinch West Carroll League playoff berth with a victory over Pioneer this afternoon at 3 at Baron Park before a "Kids Day" crowd.

Everybody will be admitted free to the final regular season game with hundreds of kids league players expected to attend. Bastrop merchants will provide free balloons, gum, cokes, etc.

Pioneer, managed by Pete Copes, will start Devone Bush on the mound while Bastrop, piloted by J. T. Rone and C. C. McVey, have nominated Rudolph Bryan to hurl.

## Wildcat Grid Squad, Dads To Be Feted

WINNSBORO (Special) — All members of the Winnsboro High School Wildcat football squad and their dads, will be honored by the Winnsboro Junior Chamber of Commerce, with a fish fry at the local VFW Home Tuesday, September 2, at 7 o'clock p.m.

Slated to attend the fish fry with the players and their fathers are Coaches Philip Poole and Glyn Ebarb; M. D. Peel, Franklin Parish superintendent of education; S. W. Williamson, Winnsboro High principal; Bailey Martin, W. B. Scriber and R. F. Kincaid, ward 7 school board members; Robert F. Mulhearn, Mayor of Winnsboro, and aldermen, James Mays, W. B. Scriber, W. E. "Frenchie" Marionaux, C. C. Nelson and Joe Hooper, Gilbert Homer, American Legion Commander; W. C. Martin, VFW Commander; B. T. "Frog" Lanier, Winnsboro Chamber of Commerce president; W. O. Gwin, representing the Winnsboro Lions club, and members of the press.

Herbert Davis is chairman of the Jaycee fish fry committee which includes Wayne Franks and Brown McEmore, Jr.

The fish fry will be prepared under the direction of Winnsboro Fire Chief Allen Robinson.

With a week's training at home, a week at Camp Ki-Ro-Li, and the Tallulah Jamboree under their belts, the Wildcats will be hard at work in preparation for their first game of the year when they host the Newellton Bears at the Wildcat stadium next Friday night.

The fish fry is being given as a token of appreciation for the long hours of hard work being put in by the coaches and players, and to remind them that the Jaycees, other civic organizations, town officials, school officials, and Winnsboro football fans are 10 per cent behind them and are pulling for them to have the best season ever experienced by any Winnsboro football team.

## Harridge Calls Meeting Of AL

CHICAGO (AP) — A special meeting of the American League Sept. 8 in Chicago was called Friday by President Will Harridge.

Harridge said "any league matters" will be discussed at that time.

Undoubtedly, high on the agenda will be a study of possible franchise shifts of Washington and Cleveland and a discussion of expansion to 10 clubs, which has been raked over the coals ever since the Giants and Dodgers landed on the West Coast.

### MINNEAPOLIS

## City Board Jolts Club Shift Hopes

By JIM KLOBUCHAR  
MINNEAPOLIS (AP) — Minneapolis' high-rising hopes of landing a major league baseball franchise got an unforeseen jolt Friday when a city board deferred action on a nine million dollar bond issue.

The board of estimates and taxation postponed a vote on the plan in the face of pleas by baseball promoters that even a week-end delay might cost the city a franchise. Minneapolis is after the Washington Senators.

The city-backed bond proposal, designed to expand Metropolitan Stadium from a 21,000 to 41,000 seating capacity, earlier in the day won 11-2 approval by the city council.

It was expected to have clear sailing through the taxation board, the agency which has to make final authorization.

But three of the seven-member board, Mrs. Samuel Gale, president Walter Johnson and A. G. Mathews, said they wanted more time to consider the bond plan.

A motion to have the bonds proposal approved was withdrawn and another meeting was set for Tuesday. Five votes are needed for passage.

Chet Roan, a member of the Metropolitan Area Sports Commission, pleaded with the board to vote. He said an invitation from a major league team could easily come over the weekend.

### HOMERS HELP

## Pressing Pirates Humble Braves, 3-2, To Gain Game

MILWAUKEE (AP)—The pressing Pittsburgh Pirates chopped a game off the Milwaukee Braves' National League lead Friday night with a 3-2 victory framed on homers by Dick Stuart and Bob Skinner and the clutch relief pitching of Don Gross.

The triumph in the opener of a three-game series lifted the second-place Pirates to within 6½ games of the defending champions and made right-hander Bob Friend the league's winningest pitcher with 18 victories, even though he needed help in the ninth after Ed Mathews homered for Milwaukee.

In gaining the decision, Friend bested Milwaukee's Warren Spahn who was also seeking his 18th victory. Instead the Braves' left-hander took his 10th loss. Friend

has 13 defeats.

Friend now has a 4-1 record for the season against the Braves. Spahn, who gave up eight hits, is 2-2 against the Pirates this year.

The statistical edge went to Spahn who fanned seven and walked two.

Friend gave up eight hits, posted three strikeouts and passed one before leaving in the ninth with none out.

Stuart got Friend and the Pirates off to a lead they never lost when he hit his 14th home run over the left field fence in the ninth inning. Skinner added one more to the total with his 11th homer, knocked into the 11th field bleachers in the fourth.

Skinner started the Pirates on the way to another run in the seventh when the Pirates loaded

the bases. After singling, Skinner was replaced by Ramo Mejias who took second on a bunt by Frank Thomas. Bill Mazeroski beat out a sacrifice bunt to put a Pirate on every base. Mejias was forced at the plate, but the run was scored by Thomas who ran home as Hank Foiles hit into a force play.

Milwaukee's first run was produced in the fourth as Hank Aaron socked the second of his four singles leading off. A double by Wes Covington moved Aaron to third and he scored while the Pirate infield was running down Covington after Frank Torre hit a roller to shortstop Dick Groat.

After Mathews hit his 28th homer leading off in the ninth, Aaron collected his last hit to dispatch Friend to the showers. Gross came on to get the Braves out on a doubleplay and an infield roller.

## Horse Racing At Magnolia Receives OK

NEW ORLEANS (AP) — The Louisiana State Racing Commission Friday granted a spring season of 45 nights of thoroughbred racing at Magnolia Park in adjoining Jefferson Parish (county).

The commission unanimously agreed to issue the permit to attorney Richard B. Montgomery Jr., trustee for Magnolia Park, Inc., former track operators now in bankruptcy.

The racing season for next spring was set for March 9 to May 9.

Commission Chairman J. J. Menefee of Monroe, made it clear that the commission reserved its right to approve the operation of the track.

Sealed bids for prospective operators are to be opened in federal court Sept. 10.

Last January a bankruptcy referee opposed reorganization of Magnolia on the ground that it was hopelessly insolvent.

But Federal Judge J. Skelly Wright ignored the recommendation and gave the corporation the go-ahead.

## Hear Report On Fire Ant In Louisiana

BATON ROUGE (AP)—Representatives from some 20 parishes Friday heard a report Louisiana is winning the fight against the ravaging imported fire ants, but the battle has just begun.

The results far exceed our Louis Fontenot, fire ant control goals," Fontenot said.

He said Louisiana has sprayed 15,000 acres with heptachlor, fire ant killing insecticide and has 113,000 more acres ready for treatment under the federal-state program.

The fire ant entered the United

States some 20 years ago from South America. It has spread over most of the South, decimating insect, bird and small animal populations and striking at farmers.

The pests bite humans painfully and sometimes fatally, in the case of small children.

Louisiana Farm Bureau Federation and state agriculture officials

said heptachlor has been almost 10 per cent effective against the fire ant.

However, others reported adverse effects on other insects, birds and small wild animals. Some felt the cane borer was more active in areas sprayed to kill fire ants.

R. N. Dopson, Louisiana supervisor for the plant pest control

program of the U.S. Department of Agriculture, said Louisiana has by far the best fire ant eradication program, spraying more infested areas than seven other southern states combined.

The farmers agreed on these points:

1. More money is needed. The state now provides \$199,000 per year and the federal government

\$300,000. Another \$100,000 will be sought from the Board of Liquidation of State Debt.

2. More studies are needed to determine the effect of the program on wildlife.

3. Studies should be made to find out if the insecticide is responsible for increased fly population and greater activity by the cane borer in treatment areas.

ACTOR-WRITER

HOLLYWOOD (UPI) — Actor Hugh Beaumont, who plays Ward Cleaver in the "Leave It to Beaver" series (CBS-TV), disagrees with a theatrical world saying that actors make poor writers.

He recently sold a short story which will appear in the January issue of a national women's magazine.

MISS MARGARET TAYLOR

## Junior Year Slated At University Of London

Miss Margaret Taylor, daughter of Mr. and Mrs. Warren F. Taylor on Fairview Avenue, will fly from New Orleans to New York with several Newcomb friends and visit in New York a few days. Along with 35 other Tulane-Newcomb junior year abroad students, she will sail from New York to LeHavre, France on the "SS Flandre." They leave New York September 2 and arrive in LeHavre, September 9.

From there the whole group goes to Brussels to spend five glorious days at the World's Fair. Then she will go with about eighteen Tulane and Newcomb students to tour England. Included in the tour are such famous places as Canterbury, Dover, London, Oxford, Cambridge, and attendance at the performance of "Romeo and Juliet" at the Shakespeare Memorial Theatre in Stratford-on-Avon.

On October 1, the group splits up to return to their respective English colleges and back to the "ole" school books. Miss Taylor

## House Warming Is Given For The Boones

A surprise house warming was given for Mr. and Mrs. M. M. Boone and Gary in their lovely new home in North Hodge.

Hosts for the occasion were Mr. and Mrs. J. D. Chapman, Mr. and Mrs. W. A. Walpole, Mr. and Mrs. Bill Gatlin, Mr. and Mrs. Ray Turner, Mr. and Mrs. George Whitman, Mr. and Mrs. Artis Meyer, Mr. and Mrs. H. D. Williams, Mr. and Mrs. Rufus Garrett and Mr. and Mrs. Aaron Petre. Those attending and sending gifts were Mesdames Emmett Sorrels, Waymon Smith, Edward Hughes, Horace Jordan, Elton Cauper, Richard Cobb, James Garner, Luther Clark, Charles Harvey, Ray Pullin, R. E. Baggarly, C. C. Turner, George Schmidt, C. W. Zuber, Durwood Clark J. J. Garner, Fred Schmidt, Lenon Martin, Dayton Driskill, John Wisdom, Alfred Matthews, C. C. Holbrook, Zeb Gatlin, Frank Westley, O. M. King, Virgil Davis, Albert Whitman, Bill Gaines, Ray Whitman, W. P. Buddie, Denson Harvey, Ray Harvey, Bob Norred, Noel Rasbury, Kenneth Sones, M. C. Moore, W. F. Moore, Gabe Durham, Frank Johnson, Charles Jenkins, I. L. Bowman, Buck Hathaway, L. Hodnett, Harold Darick, Earl Nalley, Clayton Brinson, Ernest Martin, Cloy Wray, Mrs. Charlie Baker, Mrs. Edith Carson, Mrs. V. Adams, Mrs. O. C. Kirkpatrick, Miss Delaine Smith, and Miss Diane Cooper.

After deciding the next meeting date for September 14, the club adjourned with the closing ritual.

## Tete à Tete

VACATIONING in the mountains of Dahlonega, Georgia, in her uncle's camp are Mrs. James Ewing and two children, Jane and Jimmy. They also visited Mrs. Ewing's parents in Jacksonville, Florida, and her sister in Orlando, Florida. Mr. Ewing will join his family in Biloxi this weekend and they will return to Monroe with him.

MR. AND MRS. JAMES SPARKS and son, Jimmie, spent last week in New Orleans. Jimmy leaves Wednesday for Washington and Lee University in Lexington, Virginia, where he will enter as a freshman this year.

ELMER SLAGLE JR. of New Orleans is spending the Labor Day Weekend here in the home of his parents, Mr. and Mrs. Elmer Slagle.

DETROIT visitors are Mr. and Mrs. Larkin Breed and sons, Booles, Owen and Mike, who are guests of Mr. and Mrs. C. A. Nennery, parents of Mrs. Breed.

THE OZARK MOUNTAINS was the vacation spot of Mr. and Mrs. George T. Walker and children, Ellen and George. They occupied a cottage there for a week and have now returned home.

HOT SPRINGS, Arkansas, visitors last week were Mr. and Mrs. T. A. Calloway and children, Mike and Sandra. They occupied a cottage for a week on Lake Hamilton enjoying fishing, boating and water sports.

ATTENDING the final week of activities at Camp Waldemar in Hunt, Texas, were Mr. and Mrs. John Sherrouse Jr. Their daughters, Susan and Jane, who were campers there this summer returned home with their parents this week.

SYDNEY, Australia, visitor in the home of her brother is Mrs. G. Berry. She is the guest of Mr. and Mrs. Aubrey Daly.

RETURNING from the Ozark Mountains and St. Louis, Missouri, where they attended a St. Louis Cardinal game were Mr. and Mrs. Frank Pettit. They were accompanied by their daughter, Mrs. Jack Cannon, and Mr. Cannon and their daughter, Pamela True. Mr. and Mrs. Cannon and daughter left there for Kansas City, Missouri, for a two weeks' vacation before returning home.

ARRIVING for the Labor Day weekend yesterday were Mr. and Mrs. Wesley Shafto Jr. They will be guests in the home of Mr. and Mrs. Wesley Shafto on North Third street.

## Barbecue Given By Mr. And Mrs. George Walker

Mr. and Mrs. George T. Walker entertained with a barbecue on the beautiful patio of the president's home of Northeast Louisiana State College, Tuesday, August 19, at 6:30 o'clock.

Guests were greeted on the front lawn by Ellen and George Jr. who invited them to the patio.

Six tables were set with white cloths and baskets of fruit and vegetables were used as centerpieces.

A chicken barbecue supper was served buffet style to Mr. and Mrs. L. L. Price, Mr. and Mrs. W. L. Perkins, Mr. and Mrs. Emmet Foster, Mr. and Mrs. Alva Huffman, Mr. and Mrs. Herschel Gentry, Mr. and Mrs. B. D. Albritton, Mr. and Mrs. Hurvie Moak, Mr. and Mrs. Jack Rowan, Mr. and Mrs. Ralph McKay, Jack E. Fouché, Mr. and Mrs. John Davis, Dr. and Mrs. Ernest Holloway, Mr. and Mrs. Delbert Vines and Dr. and Mrs. William B. Hammond.

## Sprig, Twig Garden Club Has Meeting

The newly formed Sprig and Twig Garden Club met for its third meeting recently in the home of Mrs. Jack Holt, with Mrs. William A. Harris serving as co-hostess. The hostess presented each member and guest with a lovely corsage as they arrived.

Guest speaker for the day was Mrs. Carmen Purdy, president of the East Carroll Garden Club. Mrs. Purdy gave a very interesting and informative talk on club federation, for the enlightenment of the members of the new club. Club president, Mrs. Helen Guenard, welcomed the following new members: Mrs. Graham Schneider, Mrs. Arthur Guenard, Mrs. J. K. McClendon and Mrs. B. W. Waxman. She also named the following project committee for the coming club year: Mrs. H. H. Howington Jr., Mr. James Shepherd, Mrs. King Trieschmann, Mrs. W. B. Ragland Jr., and Mrs. Pearce Bailey.

During the social hour following the meeting refreshments were served to the following: Mrs. Sidney Guenard, Mrs. H. H. Howington Jr., Mrs. Paul Marcus, Mrs. Hyland Nelson, Mrs. Paul Rosenzweig, Mrs. George Shepherd, Mrs. L. L. Kilgore Jr., Mrs. James Shepherd, Mrs. W. P. Tomlinson, Mrs. King Trieschmann, Mrs. Brown Nelson, Mrs. D. T. Selvin, Mrs. Arthur Guenard, Mrs. Graham Schneider, Mrs. B. W. Waxman, and Mrs. J. K. McClendon.

## Lakeshore PTA Has Executive Board Meeting

Harry W. Addison, president of Lakeshore P.T.A., in calling the executive board of his unit together for its initial meeting of the current school year, says, "The time for concentrated, cooperative work is here. We expect to bring to our people a program that is interesting and worthwhile—one built around the problems of our community and school. This will take the best efforts of all concerned; therefore as your president I am asking for your support. Our first executive committee meeting will be held at the home of Mr. and Mrs. Tommy Mulhearn, Jr. Friday evening, August 29 at 7:30 p. m. All members are urged to be present."

The executive board consists of the elected officers and the principal which includes, W. A. Poland, John V. Craft, Howard P. Monzingo, Frank T. Nolden, Tommy Mulhearn, Mrs. John P. Zoll, Mrs. G. B. Wilson and the parliamentarian, who is to be named, due to the forced resignation of our former Coach Billy Watson, now affiliated with West Monroe Junior High. The program chairman, Mrs. Irene Smith, will be present to discuss plans for the program.

## Miss Eady Complimented With Party

Miss Carol Eady was complimented by Mrs. H. H. Walters and Mrs. Lee Buatt with a coffee hour in the home of Mrs. Walters.

In the receiving line were Mr. Walters, Miss Eady, Mrs. H. R. Eady and Mrs. Buatt. The reception room held arrangements of pink hibiscus and roses. A white drawn work cloth was used on the table and the centerpiece of pink baby mums.

Miss Katherine Averette and Mrs. Amos Hood alternated at the punch service.

Those serving were Mrs. Alpha McGee, Mrs. Kate Steen and Miss LaRue Jordan presided at the bride's book.

Miss Eady was becomingly dressed in a beige shantung sheath. Forty guests called during the receiving hours.

## Luncheons Given For Miss Margaret Taylor

Miss Margaret Louise Taylor is entertained prior to her departure for London, England.

Wednesday's compliment was a luncheon in the home of Mr. and Mrs. Rex Ensinger on Hawthorne Street with Miss Emily Kay Ensinger as hostess.

The color scheme was pink and white. A pink cloth covered the table and the center arrangement was of white magnolias on either side of which were pink candles in silver holders. The arrangement on the buffet was of pink and white flowers.

A delicious salad plate was served to the honoree, the hostess, Miss Diana Cutler, Miss Sylvia Gentry, Miss Joella McCleary and Miss Martha Riser.

### LUNCHEON

Miss Diana Cutler was hostess for a luncheon on Thursday, in the home of her mother, Mrs. Haydn Cutler on Point Drive honoring Miss Margaret Taylor.

The luncheon table held an arrangement of tube roses and butterfly lilies. A delicious luncheon was served to the following: Miss Margaret Taylor, Miss Ashley Hamilton, Miss Betty Scott, her visitor, Miss Polly Spencer, Miss Helen Theus and Miss Sue Stubbs.

### CLASSICAL MUSIC DEPT.

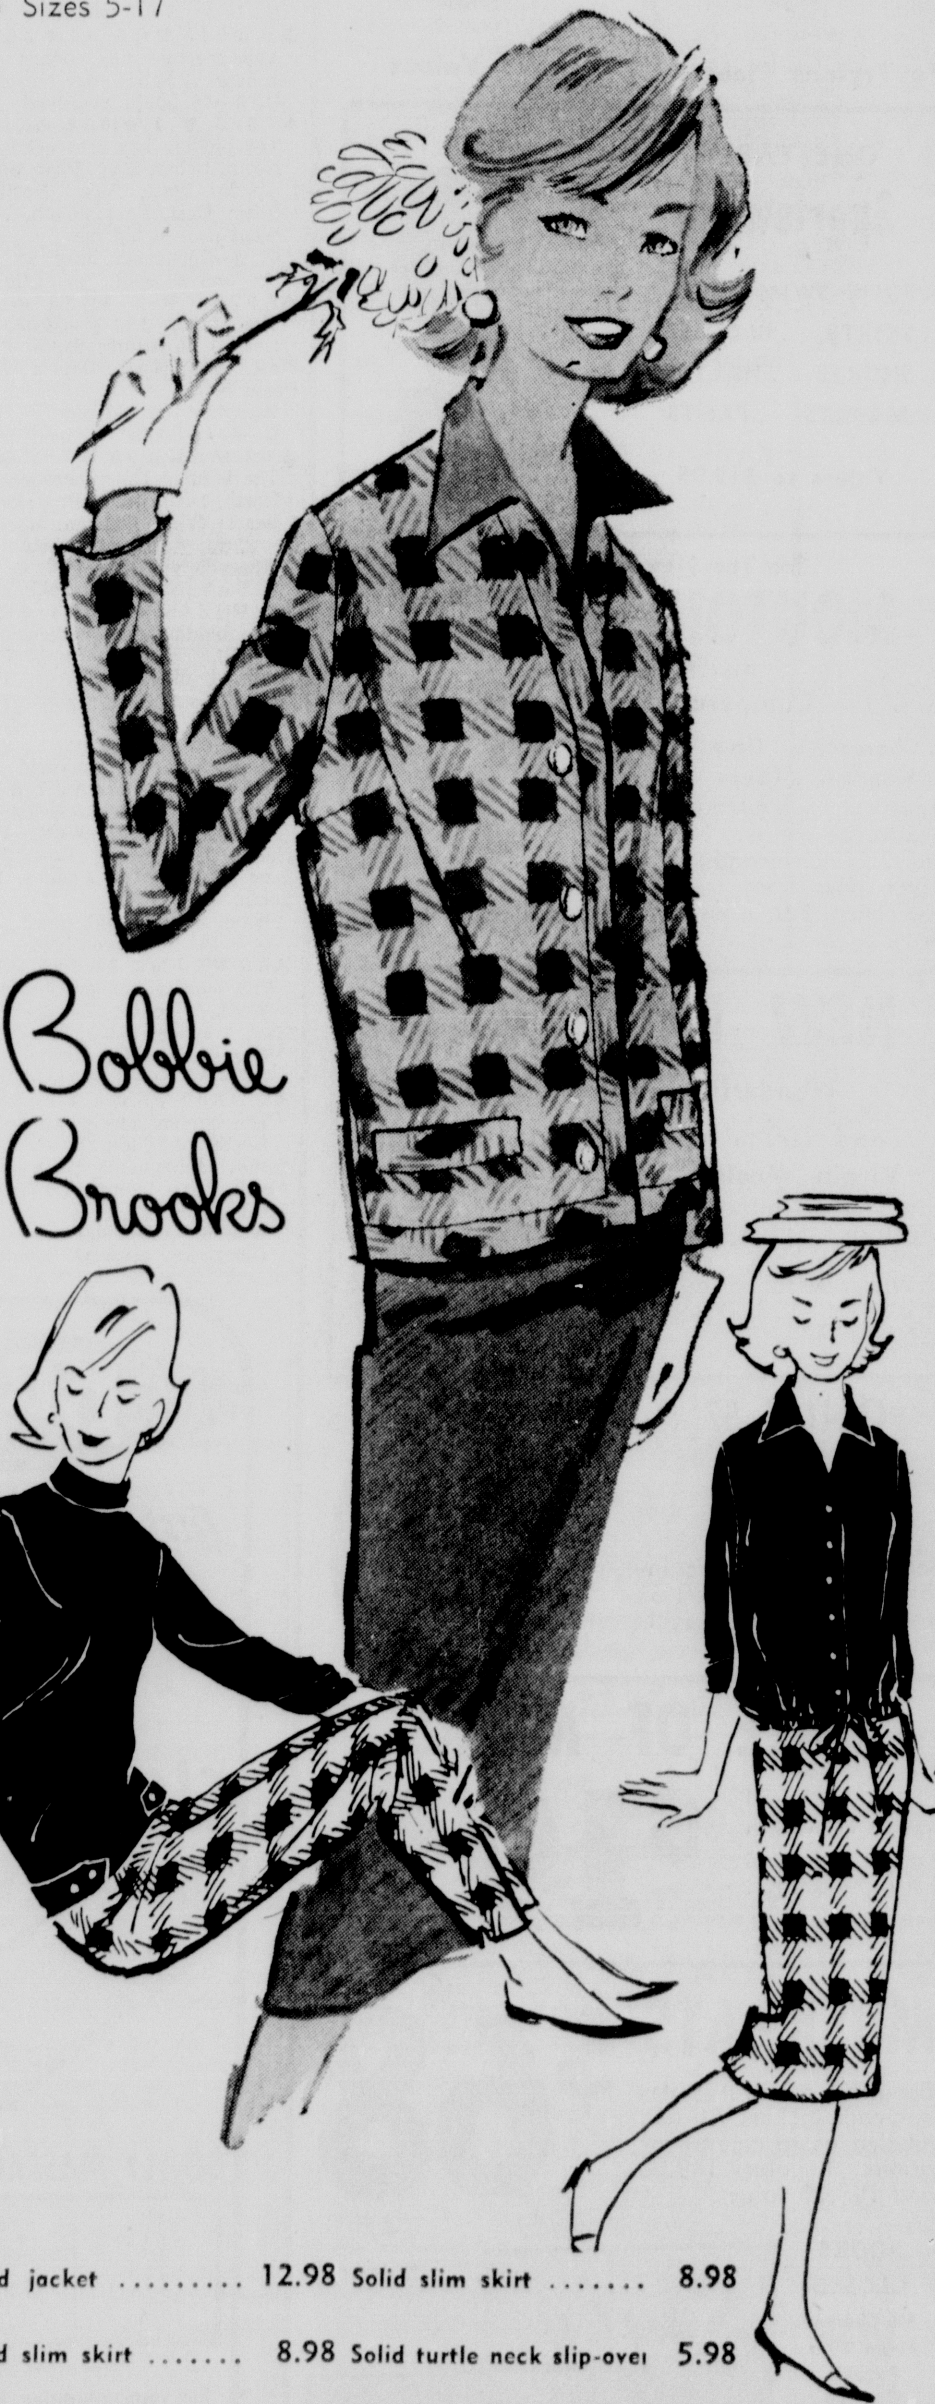

NEWCASTLE, England (UPI)—British rock 'n' roll idol Tommy Steele announced he is writing a symphony which he hopes to conduct himself at a three-hour performance in London's Royal Albert Hall.

### YOUR PROBLEMS

## Just How Ridiculous Can Some Women Be?

By ANN LANDERS

Dear Ann: I'm a widow 47 years of age. Two years ago I met an attractive bachelor. He took me out a few times then told me restaurant food made him sick. Before I knew it, he was at my home five nights a week for dinner.

Six months ago his mother broke her hip. He asked me to help him out and I agreed to take his mother into my home. She's diabetic, hard of hearing and cranky. When I want to go out in the afternoon I must pay someone to come in as she can't be left alone.

My friend has all his meals with me and I do his laundry. The other evening I told him frankly I was tired of this arrangement and asked when we were going to be married. I almost died of shock when he informed me that he's interested in a younger woman and now it's "between the two of us".

I love him very much and thought surely he intended to marry me. What shall I do now? —MONTREY

This man won't marry you. Why should he? He's unloaded his sick mother, gets his laundry done, sticks his feet under a free table whenever he feels like it, and now he's got you running in a contest.

If you're smart you'll give him his ailing mother as a farewell gift and tell him to look in the yellow pages for a laundry service. Suggest also that he feed his face elsewhere and let the other

contestant worry about his digestive system.

Dear Ann: I'm writing to ask if I should apologize to my neighbor. This woman and her husband work all day and leave their dog locked up in the house. The dog barked and howled until I drove me out of my mind.

I put up with it for six months and finally asked the advice of the Society for the Prevention of Cruelty to Animals. They suggested that I speak to the people.

Well, I did. The dog has been put in another room so I don't hear the worst of the barking. The poor lady on the OTHER side gets it. These neighbors now turn their heads when they see us and we are not on good terms.

My husband blames me for using poor judgment. He claims I should have put up with the barking and not complained. He says nothing is so important as friendly neighbors. Shall I apologize? —IN DEEP

You owe them no apology. These people are unreasonable. Of course it's nice to have friendly neighbors, but not if you have to stand on your head and spit nickels to please them.

Dear Ann Landers: I'm a girl 13. My sister who is 16 thinks she is some sort of queen or something. She says dish water hurts her hands and she gets away with it. I have to empty the garbage because she's afraid she'll break her fingernails.

Whenever I'm on the phone and she wants to use it she yells "Get off, you've gabbed long enough." We share a bedroom and my side is always neat and hers is a mess. My parents think she is perfect. How long do you think this will go on? —LITTLE SISTER

Dear Little Sister: Probably until Her Royal Highness gets married. It's your mother's place to issue the edicts around the palace. If you think she's being unfair, say so in quiet, lady-like tones.

It won't break the princess' fingernails to be civil about the phone. Mother should set a time limit for you both. Maybe one day there'll be a "Little Sister's Protective Association". Until then, grin and bear it. That's the way the mop flops.

CONFIDENTIALLY: WHAT-TO-DO: He walked into this with his eyes open and now he should close his mouth. If the baby looks like him he'll probably bust his buttons.

To learn the difference between a marriage that "settles down" and one that "gets dull," send for ANN LANDERS' booklet, "What To Expect From Marriage," enclosing with your request 20 cents in coin and a large, self-addressed, stamped envelope.

(Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper and enclose a stamped, self-addressed envelope.)

CANDIDATE EARP WICHITA, Kan. (UPI) — A descendant of frontier lawman Wyatt Earp is a Democratic candidate for sheriff of Sedgewick County, which Marshal Earp once helped to tame. The candidate is Jim Earp, an automobile dealer in Wichita.

AND THAT AIN'T BAD NEW YORK (UPI) — One hundred different records have been turned out of the song "I've Got It Bad and That Ain't Good" since it was written in 1941 by Duke Ellington and Paul Francis Webster.

### Miss Vought Complimented With Parties

Miss Annette Vought was guest of honor at a linen and lingerie shower given by Miss Sandy Edwards and Miss Daisy Young.

Miss Edwards' home on Lakeshore drive was the setting for this lovely party.

In the receiving line were Miss Vought, Mrs. A. D. Vought and the hostesses. Miss Vought wore a pink lace dress with matching accessories. Miss Edwards wore a blue embroidered sheath. Miss Young's linen chemise was black.

Guests were the honoree, the hostesses, Mrs. A. D. Vought, Mrs. H. D. Edwards, Mrs. P. N. Ritchie, Mrs. J. C. Scalia, Miss Helen Buckner, Miss Dottie Ann Buckner, Mrs. J. W. Buckner, Miss Barbara Lowery, Miss Marie Blackwelder, Miss Mary Pearl Coates, Miss Evelyn Cruise, Miss Aliene Gunn, Miss Ida Lee Hamilton, Miss Gail Fleming, Miss Ann Edwards, Miss Syble Gray, Miss Shirley Crowe, Miss Dianne Prestwood, and Miss Gloria Seay.

#### SHOWER

Miss Gail Fleming and Miss Joy Goza complimented Miss Annette Vought with a miscellaneous shower in the home of Miss Fleming on Austin Avenue in West Monroe.

The color scheme of yellow and white was carried throughout the house with yellow flowers and yellow candles.

The tea table was overlaid with a beautiful white lace table cloth and bore a crystal punch bowl at one end and delectable party sandwiches and cookies at the other.

The hostesses presented the honoree with a white carnation corsage. Many lovely gifts were received. Approximately fifteen guests called during the evening.

### 'Family Night' Enjoyed By Talla Bena HDC

The Talla Bena Home Demonstration Club enjoyed a delightful "Family Night" at the home of Mrs. H. N. Phippen. A delicious barbecue chicken supper and dessert of homemade cake was served to Mrs. M. N. Batchelor, Bert, Freddie and Marion Batchelor, Mr. and Mrs. B. G. Byrd, Mr. and Mrs. Gus Eaker and Miss Martha Eaker, Danny and Sonny Eaker, Mr. and Mrs. Alvin Foster, Janice, Larry and Miss Elizabeth Foster, Mr. and Mrs. H. N. Foster and Mike Foster, Mr. and Mrs. F. M. Gilley and Misses Betty Lou and Susan Gilley, Mr. and Mrs. W. D. Johnson, Mr. and Mrs. C. D. Karnes, Mr. and Mrs. F. M. Logue, Nan Virginia, Joy, Al and Bubba Logue, Mr. and Mrs. Ralph Loe and Misses Barbara and Lillian Loe, Mr. and Mrs. W. A. Logue, and Mrs. A. B. Matthews, Mr. and Mrs. Ernest Givens, Thomas Flurry, Mrs. Lola Flurry and Danna Brown, Mr. and Mrs. Rupert Russell and daughter, Betty Fay, Mrs. Green Rigdon, Jerry and Sammy Rigdon, Mr. and Mrs. Pippin, Jean, Charlie and Wesley Pippin.

MAJOR LEBLANC Major Melvin V. LeBlanc, son of Mrs. Carmen H. LeBlanc of Tallulah, recently arrived in Vietnam where he is a member of the Military Assistance Group stationed in Saigon.

He is a graduate of Tallulah High School, Loyola University in New Orleans and the United States Military Academy in West Point. His wife, Mrs. Peggy LeBlanc, is residing in New Orleans during his assignment in Vietnam.

PICNIC The annual picnic of the Willow Bayou Home Demonstration Club was held at the home of Mrs. J. H. Ellis with fifty-two persons in attendance. A delicious picnic dinner was served.

### YOUR BABY AND MINE

## All Parents Want The Child To Fight Back

By MYRTLE MEYER ELDRED

It always gives the parents a feeling of pride to see a small child stand up and defend himself when he is attacked. They don't want him to hurt anyone—but inside themselves they feel very embarrassed when he runs from the attacker and cries for their aid.

But all children do not like to hit—even when they are hurt. Their natural protectors are their parents and so home they run. There seems nothing much to do except to get the child more used to being roughed up a little. His Daddy, if he isn't too hard on him, can wrestle with the child and show him that a little punishment of this sort isn't a terrifying matter.

When he is old enough he can learn to hit by being given a punching bag and shown how to use it. This isn't to make a little bully of him, but to help him to know what to do when someone hits him. This is for you, Mrs. A.D.S., and for the time being I'd let the boy alone. He's really too small to be worried about his self-defense.

Mrs. H.H. If your local hospital no longer needs any more of your breast milk, then the only other course is to try to sell it yourself. You can do this by advertising in the want ads in your newspaper and you'll probably find a lot of mothers whose babies are badly in need of this milk—more than you can supply.

Choose the baby who needs it most. You don't have to SELL me on the advantages of breast feeding; this column has flouted them often.

Foster Mother: This foster child of 7½ who is so destructive and dumps shampoo on the floor, destroys plants and plays with mercurochrome, does not have the advantages of your own three children. She has a mother only one day a week and so feels abandoned, unwanted and therefore resentful and revengeful. She does what she can to make you miserable.

Her actions are out of keeping for her age so we have to recognize that they are impelled by these unhappy emotions. She isn't so different from other children, she just has had a different sort of experience.

If she could get from you just good physical care and feeding but some real affection, so that she feels herself a worthwhile person, her desire to be destructive would be lessened.

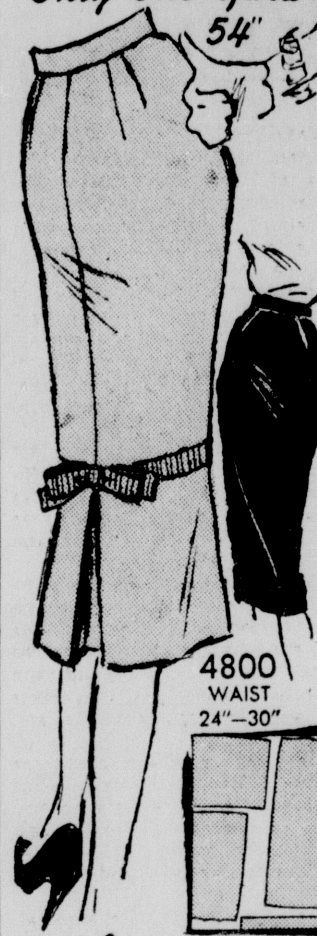

Mrs. Carmen H. LeBlanc of Tallulah, recently arrived in Vietnam where he is a member of the Military Assistance Group stationed in Saigon.

He is a graduate of Tallulah High School, Loyola University in New Orleans and the United States Military Academy in West Point. His wife, Mrs. Peggy LeBlanc, is residing in New Orleans during his assignment in Vietnam.

The annual picnic of the Willow Bayou Home Demonstration Club was held at the home of Mrs. J. H. Ellis with fifty-two persons in attendance. A delicious picnic dinner was served.

## Charges U.S. Helping Rebs

WASHINGTON (UPI)—The government of Gen. Fulgencio Batista of Cuba has accused the United States of at least indirectly helping Cuban rebels in their battle to overthrow his regime, it was learned Friday.

An informed source, who would not permit use of his name, said a strongly worded note was handed to the State Department Thursday by Dr. Mario Nunez Villavicencio, Cuban minister counselor.

In the Batista government charged that U.S. customs officials virtually turned their backs on attempts to smuggle guns to the rebels from the Florida and Texas coast areas.

The charge was immediately denied by Chester Americk, acting U.S. customs commissioner. He said customs agents had captured "tons upon tons" of supplies and weapons intended for the rebels and were holding them in Miami warehouses.

The Cuban note also asked the United States to release arms shipments for the Batista government which were frozen last March. The note said Cuba had paid for the weapons and was entitled to them.

The ship, which included automatic weapons, mortars, bazookas and ammunition. They were being delivered under the 1952 Mutual Security Agreement when they were suddenly held up.

Since March the Batista government has turned to the Dominican Republic and Nicaragua for weapons to oppose the rebel forces in southeastern Cuba led by Fidel Castro.

In Miami Thursday Jose Miro Cardona, exiled secretary-general of the Cuban opposition government and former dean of the Havana Bar Association, said Batista had contracted with Israel for one million dollars worth of ammunition and bombs.

## Director For Center Will Be Announced

JACKSON, Miss. (AP)—The question of who will be the director of Mississippi's new industrial research center is expected to be answered before Sept. 1.

Les Taylor of Jackson, chairman of the Agricultural and Industrial Board's research center committee, said recently the target date was Sept. 1.

Because the center's job will be to encourage industry to locate in Mississippi, the choice of the director will be of vital importance to the program's success.

The research center will provide industries with whatever information they need to decide whether to locate in Mississippi.

The center is being established by the A&I board on a \$40,000-a-year budget. The director will be paid \$14,000, leaving \$26,000 for all other expenses.

The Arkansas research center, upon which the Mississippi center will be modeled, has a budget of \$22,000.

The committee which investigated the types of research that would meet the requirements of such a center said a research program is necessary if Mississippi is to develop industrially.

The committee hailed the Arkansas research center as the most experienced in the nation. During the past three years of the Arkansas group's existence, it has studied wages, taxes, labor laws, labor resources, transportation, and many other subjects of vital importance to potential industry.

The group also has made special studies that concern such industries as pulpwood, fiber glass, chemicals, charcoal, silicon, mineral wool, poultry, vegetables, brick, hardwood, tourists and others.

The A&I board study committee recommended that the Mississippi research center be operated in close conjunction with the University of Mississippi and Mississippi State University but be located in Jackson.

One of the advantages of co-operating with the universities is the use of qualified personnel at the schools as consultants.

## Need Is Seen For Change In Attitude

A change is necessary in the attitude of the American public towards education, said Dr. John A. Hunter in an address to the Ouachita parish teachers at their pre-school workshop held at the new Ouachita Parish High School yesterday.

Hunter is dean of the junior division and associate professor of education at Louisiana State University and former supervisor of statistics and research for the State Department of Education.

"If there are any weaknesses in our educational system and if these weaknesses have been there for some time, then the public must be satisfied with them," Hunter stated. He named some major needs of the present system which included improving the whole educational setup and providing for those academically able students.

Other needs, according to the dean, were a counselling and guidance service and improved methods in the selection and education of teachers. He included a stepped up program of teacher recruitment.

Hunter emphasized that the quality of education is determined by the public understanding what

education can do and what good schools are like. He said that the public must clearly understand that the many shortcomings of our system are the results of the shortcomings of our society.

He asked whether or not we have downgraded ability in order to match a common level and if these curbs on ability that we force on ourselves tended to lower our achievements.

In reference to the recent comparing of the American and Russian educational systems, Hunter said we cannot imitate the Soviet system and that we should not overestimate the speed with which our program can be stepped up. Closing, Hunter pointed out that education is a long-term investment and that the primary goal is quality for quantity.

## Fund-Raising Cake Sale In Final Day Here

The Neville High School Tigerettes' fund-raising cake sale enters its final day today, with 100 prize cakes on the auction block, Sandy Dean, president of the group, said last night. The first day's sale was a great success, she said.

Funds derived from selling the cakes at \$1.50 each are to be used in paying for the Tigerettes' out of town trips this year. Cakes may be purchased by the public at a display in the rear of Neville High School, at Child's food store on Louisville, or may be ordered by calling FA 5-1324 or FA 2-1984.

## CONGRESSMAN SAYS

## U.S. Uses Moon To Check World

THE HAGUE (UPI)—An American congressman said Friday the United States already is using the moon in a new system to warn against possible guided missiles fired from any spot on earth.

Rep. James G. Fulton (R - Pa.) member of the select House Committee on Astronautics and Space, added that the system can tell the United States "what is going on in other countries." He said the system works instantaneously.

Fulton described the system in a news conference after addressing a discussion of the law of outer space in connection with the International Astronautical Congress.

The moon warning system, he said, was based on the fact that a rocket launched or explosion of great size causes ionization (the stripping away of electrons) and the agitated atomic particles from the blast spray off into the atmosphere. Then they bounce back from any heavenly body they hit, including the closest body—the moon.

Fulton said man-made satellites could be used in such a system. "But we have a ready-made satellite in the moon," he said. "It's a system that works at instantaneous speed. I can only say this: through the use of the moon we can tell what is going on in other countries."

"We call it the electronic procession of ion emission. We regard this as a major breakthrough. We know we are the first and we are now putting in the installations," he said.

Foreign and American journalists seemed incredulous and asked if this was the first announcement of the system.

"It was mentioned once before," he said, "but no one seemed to take much notice."

He displayed a transcript of questions he asked Rear Adm. John T. Hayward, chief of naval research and development, during a congressional hearing. The transcript read:

Fulton—"On current research and development do we in the United States have it in our power soon to monitor the whole world, including countries behind the Iron Curtain, through the electronic process of ion emission?"

Hayward—"Yes, we can monitor the whole world."

Fulton—"Don't we in the United States have the capability through electronic means soon to use the moon as a means for reconnaissance so we do not have to wait for a satellite in orbit or a moon shot or a landing on the moon?"

Hayward—"Yes."

Fulton did not say when the questioning of Hayward took place.

## UTILITIES COMMISSION

## Financial Report Shows Gain Here

The Monroe Utilities Commission yesterday issued a financial statement showing more than one and a half million dollars in net income for the year ending Jan. 31.

Operating income for the 12 month period totalled \$3,162,704.81, as compared with \$2,653,271.24 for the previous period.

Expenses connected with operating the utilities totalled \$1,318,366.03 while net income reached \$1,663,951.45, according to the report.

The report lists the net value of the water and light properties owned by the commission at \$10,688,842.18. Total generating capacity of the electric plant has been increased from 34,500 kilowatts to 44,500 kw by the addition of a gas turbine generator.

**IN PROGRESS**  
 Total construction in progress at the end of January amounted to \$693,752.20, to be paid for by the proceeds for the 1957 bond issue.

In a message prefacing the report, French L. Smith, commission chairman, pointed out that the commission now serves 20,000 consumers. French added that the commission was established under a legislative act passed in July, 1956, and the members of the commission serve without pay.

"We are a publicly owned enterprise entrusted with essential public services. As such we are dependent upon the continued confidence and support of the citizens of Monroe for success," French said.

Free of charge, French said the commission supplied the City of Monroe with water and electric service valued at \$80,723.99. Cash payments to the city amounted to \$439,854.09 for the same period.

In addition, the commission business office handles the charges and collections of general sanitation fees free for the city.

## Three Domestic Charters Filed For Businesses

Three domestic charters and two changes in charters for businesses in northeast Louisiana were filed during the period of Aug. 20 - 26 in the office of the secretary of state, it was learned yesterday.

The domestic charters included: Big Creek Gin Co., Inc., Box 330, Rayville, ginning and processing cotton, 100 shares at no par value; Dehlo Gin Co., Inc., Box 330, Rayville, ginning and processing cotton, 100 shares at no par value and Amyx Gravel Company, Inc., Jena, sand and gravel business, \$100,000 capital.

Changes included. Early Chevrolet, Inc., Ruston, changing corporate name to Early Chevrolet-Pontiac-Cadillac, Inc.; and Scott Truck and Tractor Company of Columbia, Inc., Monroe, changing corporate name to Scott Truck and Tractor Company of Bastrop, Inc.

One notice of dissolution filed was Ridgecrest Water Co., Inc., of Ferriday.

## COTTON

NEW YORK (AP) — Cotton futures closed 30 cents a bale lower to 25 cents higher Friday.

Traders evened positions extensively prior to the extended holiday weekend and due to the Quemo situation.

Early buying extended gains to \$1 a bale. There was no follow through to the demand and the market later moved irregularly lower as New Orleans selling, profit taking and hedging increased.

Traders were disappointed over a decline in the mid-August parity which the Department of Agriculture reported at 38.43 cents a pound basis middling 1/8 inch. This was 12 points under the July parity. The parity trend has a bearing on the local level for the 1959 cotton crop.

The weather in the cotton belt was favorable with some quarters anticipating a higher September cotton report compared with the official August estimate. Traders generally felt the market will absorb additional possible supplies and bolster market prices later.

NEW ORLEANS (AP)—Cotton futures advanced early here today but gradually eased from the highs under holiday weekend long liquidation and hedge selling.

Closing prices were steady — 40 cents a bale lower to 10 cents higher.

High	Low	Close	N.C.
Oct.	35.35	35.25	d 8
Dec.	35.76	35.63	d 6

July	34.32	34.10	d 2
Oct.	32.11	31.87	a 2

b-Bid; d-Decline; a-Advance.

NEW ORLEANS (AP) — Spot cotton closed steady and unchanged. Sales 560. Low middling 27.10; middling 35.10; good middling 36.10. Receipts 1,606. Stock 289,044.

NEW ORLEANS (AP)—The average price of one inch spot cotton at 14 designated southern spot Friday was 10 cents a bale lower at 34.77 cents a pound; previous day 34.79; week ago 34.82; month ago 34.85; year ago 33.40; average for the past 30 market days 34.82; middling 15-16ths inch average 33.25; sales 14,317.

## DOW-JONES

NEW YORK (UPI)—Dow-Jones closing range of averages:

Stocks	Open	High	Low	Close
30 Inds	507.74	510.18	505.60	508.63
20 Rails	132.16	132.94	131.51	132.52
15 Utils	77.75	78.13	77.54	77.97
63 Stocks	174.01	175.03	173.44	174.52

Net change: Industrials up 0.91; rails up 0.18; utilities up 0.18; stocks up 0.31. Standard & Poor's 500-stock index rose 0.09 to 47.75. Transactions in stocks used in averages Friday: industrials 159,900; rails 67,300; utilities 38,700. Total 265,900.

## BONDS

NEW YORK (AP)—U.S. government bonds declined again Friday but losses were not as severe as Thursday.

Corporate bonds also were lower. Investment quality issues, utilities and rails all gave ground. Dealers attributed some of the selling to the news that the Federal Reserve System had tightened the money supply during the week. It did this by allowing free reserves, upon which the banks do business, drop to the lowest point since Jan. 8.

Corporate bond trading on the New York Stock Exchange amounted to \$4,550,000 par value compared with Thursday's \$4,130,000.

## STOCKS IN THE SPOTLIGHT

## BUSINESS HIGHLIGHTS

United Press International

## ECONOMIC FORECAST

Ready acceptance of the 1959 automobile and absence of any labor strife will determine whether present rates of business recovery are maintained, the Indiana University Bureau of Business Research reported. The bureau predicted the economy could return to mid-1957 levels by as early as October or November if the present rate of recovery continues.

## AUTO STRIKES

The auto industry was on the verge of halting production of 1959 models as wildcat strikes idled 22,650 workers in plants in Michigan and Ohio. General Motors, hardest hit by the walkouts, already was forced to shut down its Buick assembly and engine plants in Flint, Mich., because of shortages of axles and castings from idled supply plants.

## AUTO PRODUCTION

Strikes hampering the industry's drive for 1959 model production brought auto output to rock bottom this week, according to Ward's Automotive Reports. It estimated this week's U.S. production at only 16,432 cars and 8,037 trucks—a combined volume of 24,469 units—one of the poorest efforts in recent years.

## SOCIAL SECURITY

President Eisenhower signed into law a bill boosting social security benefits by 7 per cent and raising the tax rate on employees and employers. The administration had objected to the bill because it also included \$197 million in federal public assistance grants to the states.

## TIN

Britain announced curbs on imports of Sino-Russian tin to counter Soviet dumping which threatened the collapse of world market prices. An official announcement from the Board of Trade and Foreign Office said import restrictions would come into force Saturday.

## BRISKER BUSINESS

The government released fresh evidence of brisker business in manufacturing lines during July. The Commerce Department said that manufacturer's sales expanded 2 per cent to \$24,700,000,000 after allowance for usual seasonal changes. Inventory liquidation slowed down and new and unfilled orders increased.

## STOCK SALES

NEW YORK (AP)—New York	
Week sales:	
Previous day	2,540,000

1957 to date	356,406,219
1956 to date	388,742,665

## THEY'D PREFER DONKEYS

JACKSON, Miss. (UPI)—Leader of Mississippi's "Dollars For Democrats" drive are planning to change the wallpaper in a local hotel room they are using for headquarters. The paper is decorated with elephants.

# Moderate Gain Is Noted On Stock Market

NEW YORK (AP)—A surprise rally late Friday sparked a do-nothing, pre-Labor Day stock market to a moderate gain.

Thanks to a pickup in trading as prices rose in the final hours, volume edged up to 2,260,000 shares compared with 2,540,000 Thursday.

Drugs, followed by steels, tobaccos and an assortment of gainers in various sections were the pace-makers in the rise.

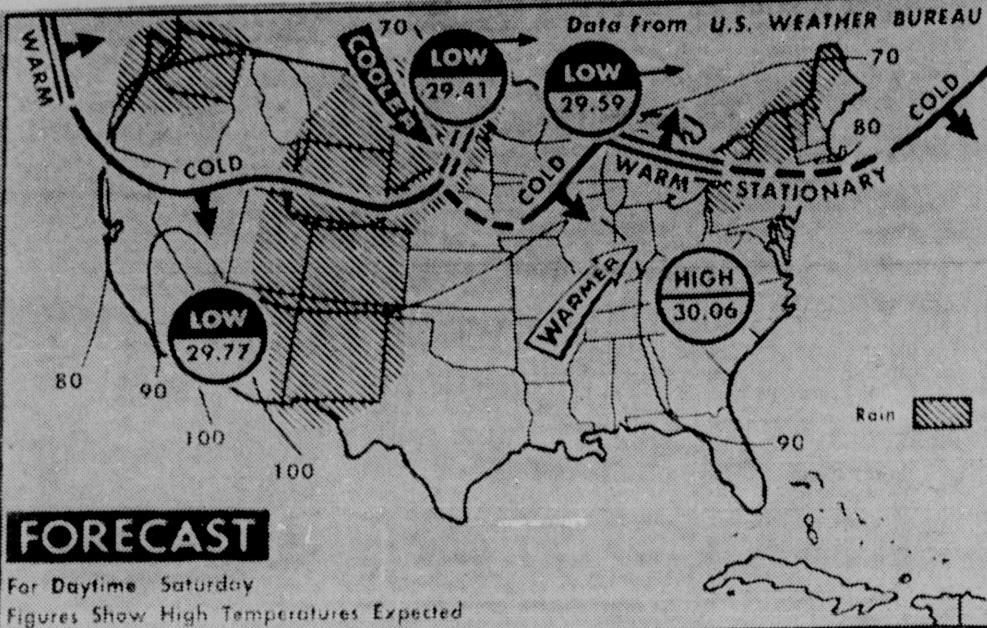

Early in the day trading was very sluggish and prices narrowly uneven as typical caution prevailed prior to the long weekend, a traditional milestone for business and the stock market.

Uncertainties about the future were compounded by the suspenseful situation near Formosa and further evidence of credit tightening by the Federal Reserve System. News that construction contract awards in July rose substantially over a year ago and that the seven months total this year was ahead of the like 1957 period was very bullish but had no effect on building industry stocks or the market generally.

The late rally was ascribed by brokers to the fact that most important selling orders had been taken care of Thursday when the market declined fairly sharply. It didn't take much in the form of buy orders to boost up prices when offerings were very thin they said.

The flare-up in speculative interest was highlighted by the fact that eight of the 15 most active stocks were lower-priced issues selling at or below the price of American Motors which closed at 16 1/4.

Fourteen of the 15 most active

**WEATHER FORECAST** — Fair weather is expected today east of the Mississippi except for rain in northern New England and Appalachians. Rain is also due for northern states from upper Mississippi Valley to eastern slopes of northern Rockies, south and central Rockies, Texas Panhandle and north Pacific coast. It will be warmer over Ohio Valley and central Mississippi Valley; cooler in the northern Rockies. (AP Wirephoto Map)

## POULTRY

CHICAGO (AP)—(USDA)—Live poultry no tone; yesterday's receipts were 18,000 lbs; no prices reported due to insufficient information.

stocks rose and only one was unchanged, Lowe's.
